Footnotes:

1 Figures in parentheses are based on 25-49 unweighted cases.
2 Women who do not want any more children or want to wait at least 2 years before their next birth but are not currently using a method of FP.
3 Skilled provider is a doctor, nurse, midwife, or clinical officer.
'a' represents omission because less than 50% of respondents had sexual intercourse for the first time before reaching the beginning of the age group
