
Statistical Release BOP/1/2026

Quarterly Balance of Payments

First Quarter, 2026

Balance of Payments

The current account balance widened from a deficit of KSh 70.0 billion in the first quarter of 2025 to a deficit of KSh 120.9 billion in the first quarter of 2026 as highlighted in Table 1. This partly resulted from a 4.5 per cent increase in imports of goods, coupled with a 34.8 per cent increase in service expenditures in the first quarter of 2026. Receipts from exports of merchandise goods registered a 6.2 per cent decline to KSh 385.6 billion during the same period.

The surplus in the services account contracted by 26.7 per cent to KSh 56.2 billion during the review period. This was partly attributable to an increase in expenditure on other business services which doubled in the first quarter of 2026. Telecommunication and transportation services recorded marginal declines in net exports during the review period. On the contrary, a 15.4 per cent increase in net travel receipts was recorded during the same period. Exports of Government goods and services; and financial services outpaced imports of these services, to record net increases during the period under review.

Remittance inflows continued to shore up the current account with inflows amounting to KSh 168.9 billion, in the first quarter of 2026. The United States of America remained the leading source of remittances. The primary income account recorded net outflows of KSh 66.7 billion in the first quarter of 2026 compared to KSh 82.7 billion in the first quarter of 2025.

Net financial inflows more than doubled from KSh 108.4 billion in the first quarter of 2025 to KSh 243.5 billion during the period under review. The main source of this was in form of portfolio debt securities following the issuance of two Eurobonds valued at USD 2.25 billion in February, 2026. Following this issuance, there was a buildup in reserve assets from KSh 77.0 billion in the first quarter of 2025 to KSh 173.6 billion in the first quarter of 2026. Similarly, there was increased uptake of debt securities assets by deposit-taking corporations and other sectors during the period under review from a net disinvestment of KSh 7.1 billion to a net investment of KSh 45.9 billion. The overall balance of payments position improved from

a surplus of KSh 77.0 billion during the first quarter of 2025 to a surplus of KSh 176.0 billion during the first quarter of 2026.

Stock of External Debt Liabilities of General Government

The stock of external debt liabilities of the General Government amounted to KSh 5,919.1 billion at the end of March 2026, up from KSh 5,468.5 billion at the end of March 2025, as presented in Table 2. This increase was primarily attributable to a 41.9 per cent increase in the stock of International Sovereign Bonds, following the issuance of two International Sovereign Bonds of USD 2.25 billion in February 2026. The bonds were largely for liability management and budget support.

The stock of external loans accounted for 71.5 per cent of total external debt liabilities at the end of March 2026, amounting to KSh 4,231.9 billion. Loans remain the major source of external debt of General Government. Loans from multilateral sources increased by 6.6 per cent to KSh 3,067.9 billion. Conversely, the stock of debt from bilateral sources and commercial banks declined by 3.4 per cent and 38.3 per cent, to KSh 969.6 billion and KSh 180.0 billion, respectively.

Non-resident holdings of Treasury Bonds declined from KSh 307.2 billion as at end of March 2025 to KSh 302.0 billion at the end of March 2026, while those of Treasury Bills rose by 72.4 per cent to KSh 5.4 billion. Meanwhile, the stock of International Sovereign Bonds was KSh 1,379.8 billion at the end of Q1,2026 accounting for 23.3 per cent of the General Government's total external liabilities.

*Provisional

Note: By convention, guaranteed debt is a contingent liability, hence recorded as a memorandum item.

The figures might differ from the stock of debt captured in the OEBR under Public & Publicly guaranteed External Debt due to inclusion of domestically issued debt held by non-residents and which has been revised from September,2023.

Debt issued by non-residents is recognized as external irrespective of the currency in which the debt is denominated or issued and vice versa.

Holdings of local currency by non-residents is always a liability of the local commercial banks

International Merchandise Trade

During the first quarter of 2026, Kenya's total merchandise trade expanded by 15.2 per cent to KSh 1,051.7 billion, compared to the same quarter of 2025. The increase was attributable to growth in both imports and exports, as illustrated in Figure 1 and Table 3. However, imports grew at a faster pace than exports, leading to a deterioration in the trade balance from a deficit of KSh 359.3 billion recorded in the first quarter of 2025 to a deficit of KSh 438.1 billion in the quarter under review.

Value of Domestic Exports

In the first quarter of 2026, the value of domestic exports was KSh 249.1 billion compared to KSh 238.6 billion in the corresponding quarter of 2025. The growth was largely driven by a 10.5 per cent increase in earnings from horticultural products. In addition, there was a 10.2 per cent increase in earnings from articles of apparel and clothing accessories as shown in Figure 2 and Annex 1. Improved international prices resulted to a 7.5 per cent increase in earnings from exports of coffee from KSh 15.7 billion in the first quarter of 2025 to KSh 16.8 billion during the review period.

In addition, substantial gains were recorded in exports of industrial machinery, whose earnings more than tripled to KSh 9.8 billion in the first quarter of 2026, largely driven by increased domestic exports of bifacial solar cells.

Despite the overall improvement in export earnings in the first quarter of 2026, export revenues from tea fell by 1.7 per cent to KSh 45.3 billion, while earnings from animal and vegetable oils decreased by 23.2 per cent to KSh 6.4 billion.

Figure 2: Value of Selected Domestic Export Commodities, 1st Quarter, 2024-2026

Analysis by the Broad Economic Category (BEC) classification shows that food and beverages remained the leading source of domestic export earnings in the first quarter of 2026, accounting for 44.0 per cent of total export receipts as presented in Annex 7. The growth was mainly driven by primary food and beverage exports, which contributed 77.9 per cent of the category's total earnings during the period under review. In contrast, earnings from exports of non-food industrial supplies category declined by 14.4 per cent to KSh 50.5 billion in the first quarter of 2026 compared to a similar quarter the previous year.

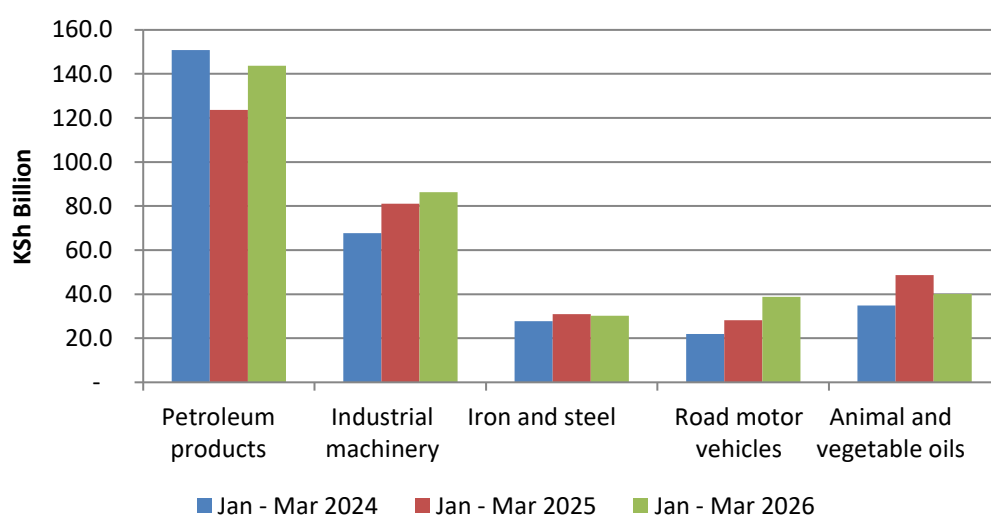

Value of Imports

In the first quarter of 2026, the import bill increased to KSh 744.9 billion from KSh 636.1 billion recorded in the corresponding quarter of 2025, reflecting a growth of 17.1 per cent. The increase was broadly driven by higher expenditure on petroleum products, food and chemical fertilizers, as presented in Figure 3 and Annex 3. Expenditure on importation of petroleum products rose from KSh 123.5 billion in the first quarter of 2025 to KSh 143.7 billion in the first quarter of 2026. Similarly, import bill for chemical fertilizers more than doubled to KSh 30.0 billion, reflecting increased demand for agricultural inputs in the quarter under review. The value of imported road motor vehicles increased from KSh 28.1 billion to KSh 38.7 billion, while that of industrial machinery increased from KSh 81.0 billion to KSh 86.3 billion over the same period.

Expenditure on imports of both wheat and rice increased from KSh 2.4 billion and KSh 3.7 billion to KSh 22.3 billion and KSh 21.8 billion, respectively, in the first quarter of 2026. Conversely, imports of medicinal and pharmaceutical products; and animal and vegetable oils decreased by 23.2 per cent and 17.5 per cent, respectively, over the same period.

Under the Broad Economic Category classification, the non-food industrial supplies remained the dominant import category, accounting for 37.3 per cent of the total import bill in the first quarter of 2026, compared to a share of 39.7 per cent in the first quarter of 2025, as shown in Annex 8.

Figure 3: Value of Selected Import Commodities, 1st Quarter, 2024-2026

Direction of International Merchandise Trade

Total export earnings in the first quarter of 2026 amounted to KSh 306.8 billion, representing a growth of 10.8 per cent. The increase was largely supported by improved export performance in key markets across Africa, Asia and Europe.

Africa remained the largest market for the country's exports, accounting for 41.7 per cent of total export earnings in the quarter under review. Export earnings from the region increased to KSh 127.9 billion in the first quarter of 2026 from KSh 102.2 billion recorded in the first quarter of 2025, driven mainly by higher exports to key trading partners including Uganda, the Democratic Republic of Congo (DRC), Tanzania and Egypt. There was increased domestic exports of potatoes and tomatoes as well as re-exports of gas oil and motor spirit (gasoline) premium to Uganda and increased re-exports of kerosene type jet fuel to the DRC. Improvements in export earnings were also

observed in domestic exports of electricity and re-exports of kerosene type jet fuel and tractors to Tanzania and domestic exports of photovoltaic cells not assembled in modules or made up into panels, to Egypt.

Total value of exports to Europe increased to KSh 72.1 billion in the first quarter of 2026 from KSh 68.0 billion in the first quarter of 2025, reflecting an increase of 6.0 per cent. Within the region, strong growth in exports to the Netherlands and United Kingdom largely offset reductions in selected Western European destinations. The Netherlands remained the single largest European market for Kenyan exports, supported largely by cut flowers.

Similarly, exports to the Americas increased to KSh 26.5 billion in first quarter of 2026 from KSh 21.3 billion in the first quarter of 2025, largely driven by increased shipments of photovoltaic cells assembled in modules or made up into panels and coffee to the United States of America.

Revenue from exports to the Asian market rose to KSh 73.8 billion in the first quarter of 2026, representing an increase of 11.8 per cent. This development was mainly attributed to increased exports to Indonesia, United Arab Emirates and India. Specifically, there was increased domestic exports of photovoltaic cells assembled in modules or made up into panels to Indonesia, re-exports of coffee to India and kerosene type jet fuel to the United Arab Emirates.

During the first quarter of 2026, import expenditure rose by 17.1 per cent to KSh 744.9 billion compared to the same quarter of 2025. The growth was mainly driven by higher imports from Asia and Europe, which more than offset declines in imports from the Americas and Australia & Oceania.

Asia remained the leading source of Kenya's imports, accounting for 72.6 per cent of the total import bill during the review period. Import expenditure from the region rose by 21.4 per cent to KSh 541.1 billion, largely supported by increased imports from China (29.2%) and India (52.6%). In addition, expenditure on imports from Saudi Arabia, Oman, Pakistan and Thailand more than doubled. The increase was partly attributable to higher imports of rice from Pakistan and Thailand; gas oil and motor spirit (gasoline) premium from Saudi Arabia, Oman and India. The growth in imports in imports from

China were largely on account of increased importation of manufactured goods, transport equipment and industrial inputs.

The value of imports from Europe rose by 19.0 per cent to KSh 89.7 billion in the first quarter of 2026. This growth was largely driven by increased imports from the Russian Federation, which nearly quadrupled, as well as higher imports from Belgium, Italy and Germany. Precisely, there were increased importation of wheat and chemical fertilizers from Russian Federation; motor spirit (gasoline) premium from Belgium and Italy; and chemical fertilizers from Germany. In contrast, imports from Finland, the Netherlands and the United Kingdom declined by 67.3, 16.7 and 4.2 per cent, respectively, during the period under review.

Expenditure on imports from Africa increased by 6.7 per cent to KSh 71.4 billion in the first quarter of 2026. The growth was mainly supported by increased imports from Uganda, Zambia, Tanzania and Eswatini. Notably, import bill from Zambia more than doubled compared to the corresponding quarter of 2025, largely due to increased imports of maize. Conversely, expenditure on imports from South Africa declined by 12.3 per cent, largely occasioned by decreased imports of coal, in the quarter under review.

On the other hand, imports from the Americas decreased by 3.2 per cent to KSh 41.1 billion, largely due to a 34.0 per cent decline in imports from the United States of America, resulting from decreased imports of natural gases. The decline was partly moderated by increased imports of wheat and meslin from Argentina and Brazil.

Similarly, over the same review, imports from Australia and Oceania contracted by 84.4 per cent to KSh 0.6 billion, primarily on account of decreased imports of sorghum grains from Australia.
