
Statistical Release BOP/3/2023

Quarterly Balance of Payments

Third Quarter, 2023

Balance of Payments

The current account balance improved to a deficit of KSh 122.5 billion in the third quarter of 2023 compared to a deficit of 211.6 billion in a similar period of 2022 as shown in Table 1. Similarly, merchandise trade deficit narrowed from KSh 373.1 billion in the third quarter of 2022 to KSh 326.2 billion in the same quarter of 2023 and mainly supported the improved current account balance. Earnings from exports continued to grow, increasing by 19.7 per cent to KSh 270.0 billion, while imports declined slightly to KSh 596.2 billion in the quarter under review. Increased export earnings from tea and horticulture partly occasioned the growth in exports.

During the quarter under review, receipts from international trade in services declined by 5.1 per cent to KSh 186.2 billion while service payments reduced by 5.0 per cent to KSh 150.0 billion. These developments resulted into a surplus of KSh 36.2 billion in services account balance, reflecting a reduction of 5.8 per cent. Remittance flows from Kenyans living in the diaspora, grew from KSh 114.3 billion in the third quarter of 2022 to KSh 155.9 billion in the corresponding quarter of 2023. This resulted into 35.2 per cent growth in the surplus of the secondary income account.

Net financial inflows registered a deficit of KSh20.6 billion in the third quarter of 2023 from a surplus of KSh 175.1 billion in the similar quarter of 2022. The stock of gross official reserves increased by 18.7 per cent to KSh 1,116.0 billion at the end of third quarter of 2023, mainly on account of 22.7 per cent depreciation of the Kenyan Shilling against the dollar which exchanged at KSh 148.10 to the dollar. In the third quarter of 2023, there was drawdown of the gross official reserves mainly towards external public debt repayment leading to deterioration of the overall Balance of Payments position to post a deficit of KSh 131.5 billion.

¹ Adjusted for Coverage

Stock of External Debt Liabilities of General Government

The stock of external debt of general government for the period ending September, 2023 is presented in Table 2. The stock of external debt rose from KSh 4,224.3 billion at the end of September, 2022 to KSh 5,528.8 billion at the end of September, 2023, representing a 23.6 per cent increase. This was largely on account of an increase in the stock of loans which accounted for 80.4 per cent of the stock of external debt of general government during the period under review.

The stock of external loans rose by KSh 1,110.2 billion from September, 2022, and amounted to KSh 4,445.3 billion at the end of September, 2023. This resulted from increased disbursements in the third quarter of 2023, with the bulk of loan disbursements received in July, 2023 from the International Monetary Fund. The stock of loans from bilateral sources rose by 14.2 per cent to KSh 1,258.2 billion at the end of September,

2023. Similarly, the stock of external loans from commercial sources and suppliers' credit rose by 16.9 per cent and 23.1 per cent, respectively, at the end of September, 2023.

The stock of external debt securities also rose by 17.9 per cent from KSh 889.1 billion at the end of September, 2022 to KSh 1,083.5 billion at the end of September, 2023. However, the increase in debt securities was attributable to valuation changes, particularly on the International Sovereign Bond, rather than on account of issuance of securities.

*Provisional

Note:

By convention, guaranteed debt is a contingent liability, hence is recorded as a memorandum item.

The figures might differ from the stock of debt captured in the QEBR under Public & Publicly guaranteed External Debt due to inclusion of domestically issued debt held by non-residents

International Merchandise Trade

In the third quarter of 2023, total exports grew by 19.6 per cent while imports declined by 1.6 per cent compared to the third quarter of 2022. This performance led to a decrease in trade deficit from KSh 433.8 billion in third quarter of 2022 to KSh 379.2 billion in third quarter of 2023, depicting an improvement in the balance of trade, as shown in Figure 1 and Table 3. The rise in earnings from exports in the third quarter of 2023 was largely boosted by increased domestic exports of tea and horticulture. Conversely, the decline

in import expenditure in the same period was majorly occasioned by significant decreases in imports of petroleum products; iron and steel; and chemical fertilizers.

Value of Domestic Exports

During the third quarter of 2023, the value domestic exports amounted to KSh 233.1 billion representing an increase of 16.6 per cent from the corresponding quarter of 2022. This development was largely contributed by increase in exports of tea, horticulture, essential oils, and; iron and steel as shown in Annex 1 and Figure 2. Earnings from domestic exports of horticultural products recorded the highest rise in the quarter under review from KSh 34.6 billion in third quarter of 2022 to KSh 48.8 billion. Similarly, revenue from domestic exports of tea grew from KSh 40.2 billion in the third quarter of 2022 to KSh 50.1 billion in the third quarter of 2023, majorly due to increase in the quantity of tea exported.

In spite of the overall growth in earnings from domestic exports, revenue from exports of titanium ores and concentrates, and; articles of apparel and clothing accessories

exhibited declines of 46.3 per cent and 23.2 per cent, respectively, over the review period.

Figure 2: Domestic Exports of Selected Commodities, 3rd Quarter, 2021-2023

Under the Broad Economic Category (BEC) classification the bulk of domestic export earnings were from the food and beverage category, constituting 46.6 per cent of the total domestic export earnings, as reflected in Annex 7. During the same period, non-food industrial supplies was the second-largest category, representing 26.4 per cent of the total domestic export earnings. This was despite a decline observed in the primary non-food industrial supplies sub-category compared to the third quarter of 2022.

Value of Imports

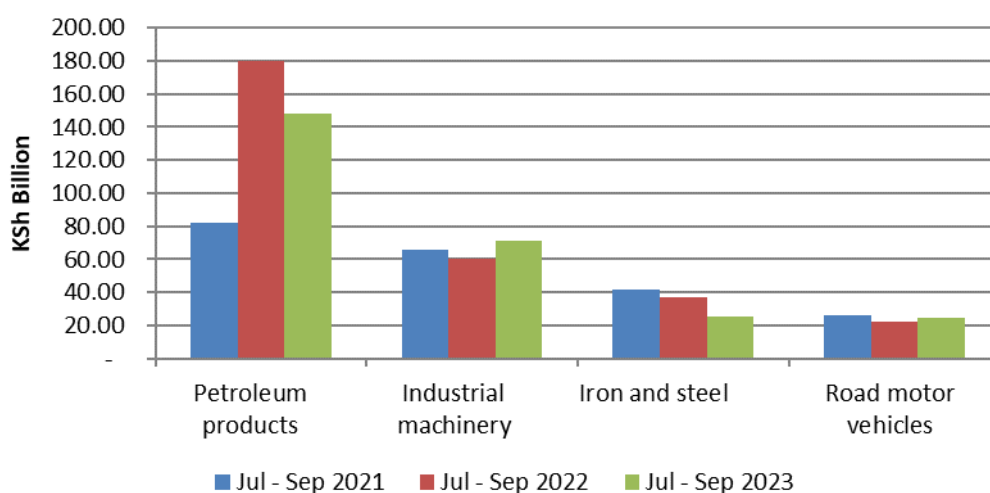

Expenditure on imports in the quarter under review amounted to KSh 648.6 billion, indicating a decrease of 1.6% from the third quarter of 2022. This decline was mainly attributable to a decline in the value of imported petroleum products, which decreased from KSh 180.1 billion in the third quarter of 2022 to KSh 147.8 billion in the third quarter of 2023, as illustrated in Figure 3 and Annex 3. Similarly, expenditure on imported iron and steel, and chemical fertilizers reduced by 32.2 per cent and 72.4 per cent, respectively, over the review period. Other commodities that registered declines were medicinal and pharmaceutical products (4.8%); textile yarn, fabric, and related products (13.2%); paper and paperboard (17.9%); structures and parts of structures of iron, steel or aluminum (45.1%); and liquefied propane and butane (17.1%).

In contrast, expenditure on imported sugars, molasses and honey more than doubled to KSh 15.2 billion in the third quarter of 2023, while that of imported industrial machinery

rose from KSh 60.1 billion in the third quarter of 2022 to KSh 70.8 billion during the review period. Additionally, there was an increase in the value of imported unmilled wheat, and; animal and vegetable oils and fats of 42.5 per cent and 19.3 per cent, respectively, in the same review period.

Analysis by Broad Economic Category (BEC) classification, showed that in the third quarter of 2023, the bulk of import expenditure was on non-food industrial supplies, and fuel and lubricants, jointly accounting for 57.5 per cent, as presented in Annex 8. Notably, in the period under review, the expenditure on commodities under food beverages category went up by 43.1 per cent from KSh 65.8 billion in the third quarter of 2022.

Figure 3: Value of Imports of Selected Commodities, 3rd Quarter, 2021-2023

Direction of International Merchandise Trade

During the third quarter of 2023, total exports reached KSh 269.4 billion, translating to a growth of 19.6 per cent compared to the same quarter of 2022, as presented in Annex 5. The largest share was export revenues from the African continent valued at KSh 119.7 billion, constituting 44.4% of Kenya's overall export earnings in the third quarter of 2023. Remarkably, there was an increase in earnings from exports to Uganda (27.7%), Tanzania (32.1%), South Sudan (64.4%) and Democratic Republic of Congo (78.6%). Specifically, there was increased domestic exports of cement clinkers to Uganda; lubricants and food preparations to South Sudan; wheat flour, food preparations, and

preparations of organic-surface active agents to Democratic Republic of Congo; and re-exports of kerosene type jet fuel to Tanzania.

The value of exports to Asia increased by 30.3 per cent from KSh 53.9 billion in the third quarter of 2022 to KSh 70.2 billion in a similar quarter of 2023, largely on account of increase in domestic exports of tea to Pakistan, goat meat to United Arab Emirates and re-exports of kerosene type jet fuel to Saudi Arabia. Albeit, the overall growth in exports to this region, exports to China and Singapore declined by 26.2 per cent and 84.2 per cent, respectively. Revenue from exports to the European Union (EU) increased by 21.9 per cent in the third quarter of 2023 compared to the corresponding quarter of 2022, primarily boosted by increase in domestic exports of cut-flowers and avocados to the Netherlands. Conversely, over the same period, earnings from exports to America dropped by 26.8 per cent, mainly on account of decreased domestic exports of titanium ores and concentrates; and macadamia nuts to the United States of America.

During the third quarter of 2023, expenditure on imports declined by 1.6 per cent compared to the same quarter of 2022, as illustrated in Annex 6. The highest proportion of total import expenditure in the quarter under review was from the Asian region at 67.1 per cent. Import bill to the Middle East increased marginally despite a downward surge in the value of imports from Oman, which was countered by an increase in the value of imports from both United Arab Emirates and Saudi Arabia. On the hand, import expenditure to the Far East Asia, declined by 6.4 per cent in the quarter under review, largely occasioned by decline in imports from South Korea (74.9%), Taiwan (75.7%) and Malaysia (18.5%).

Total imports from the EU dropped to KSh 52.4 billion during the third quarter of 2023 from KSh 62.3 billion in the same quarter of 2022, predominantly occasioned by decrease in imports of base oils from the Netherlands. Import bill to Russian Federation rose by KSh 6.7 billion in the review period, largely driven by increased importation of wheat from this source.

In the quarter under review, import expenditure to the African continent reduced from KSh 76.9 billion in the third quarter of 2022 to KSh 73.8 billion, translating to a decrease of 3.9 per cent. This reduction was partly contributed by decrease in imports of maize from Tanzania, and Sugar from Swaziland. Conversely, there was an increase in imports from

the American continent, mainly driven by increase in imports of wheat, soya-bean oils and its fractions from the United States of America and sugar from Brazil.

ANNEXES

Annex 1: Value of Domestic Exports of Principal Commodities¹, 2021– 2023
