Between February and March 2013, Food and Non Alcoholic drinks' index increased by 1.35 per cent. As shown in Table 3 above, increase in the food index resulted from a combination of both rises and falls in the average prices of different food items.

Housing, Water, Electricity, Gas and Other fuels' index went up by 0.96 per cent between February and March 2013. This increase was mainly caused by higher costs of electricity, kerosene, Liquefied Petroleum Gas (LPG) and other cooking fuels. In particular, during the review period, electricity charges went up on account of higher fuel and forex adjustment charges which rose from KSh 5.38 to KSh 6.21 and from KSh 1.04 to KSh 1.69 per KWh respectively.

The Transport index went up by 1.49 per cent over the same period due to higher costs of petrol, diesel, taxi, and bus/matatu fares.
