Quarterly Balance of Payments

Third Quarter, 2020

Balance of Payments

During the third quarter of 2020, the current account deficit improved by 10.6 per cent to KSh 141.1 billion from KSh 157.9 billion in the third quarter of 2019, as shown in Table 1. This is partly attributable to the narrowing of international merchandise trade balance which improved by 16.1 per cent from a deficit of KSh 273.1 billion in the third quarter of 2019 to a deficit of KSh 229.0 billion in the third quarter of 2020. Net international trade in services inflows went down to a deficit of KSh 2.7 billion in the third quarter of 2020 from a surplus of KSh 41.2 billion in the corresponding quarter of 2019.

Exports which are a major source of foreign exchange increased by 11.1 per cent to KSh 163.7 billion in the third quarter of 2020 from KSh 147.3 billion in the corresponding quarter of 2019. The growth was supported by increased domestic exports of tea and horticulture partly due to minimal disruptions to the international supply of these commodities. On the contrary, imports on free on board (f.o.b) basis reduced by 6.6 per cent to KSh 392.7 billion in the quarter under review mainly as a result of decreased import expenditure on petroleum products. As a result of these developments, international merchandise trade balance improved by 16.1 per cent to a deficit of KSh 229.0 billion in the quarter under review.

In the third quarter of 2020, inflows of international trade in services remained subdued reducing to KSh 91.5 billion from KSh 138.8 billion in the same quarter of 2019. Depressed performance in the tourism and transport sub-sectors occasioned the significant decline. However, remittances from the diaspora increased by 28.9 per cent to KSh 87.6 billion boosting the surplus in the secondary income account to KSh 131.5 billion in the quarter under review.

Financial inflows were largely positive in the third quarter of 2020 but were lower than the corresponding quarter of 2019 on account of inflows in the other

investment account. As a result, net financial inflows reduced by 73.5 per cent from a surplus of KSh 120.9 billion in the third quarter of 2019 to a surplus of KSh 32.0 billion in the third quarter of 2020. Stock of gross official reserves declined by 2.8 per cent to KSh 951.0 billion as at the end of September 2020. The Kenya Shilling depreciated against the dollar to exchange at KSh 108 as at the end of September 2020 compared to KSh 103 as at the end of September 2019.

Public External Debt

The stock of public and publicly guaranteed external debt amounted to KSh 3,663.5 billion as at the end of September 2020 having risen by 17.7 per cent from the levels recorded at the end of September 2019. This also represented an increase of 4.2 per cent in the stock of public external debt from the second quarter of 2020.

The stock of debt from multilateral lenders increased by 41.9 per cent from KSh 1,001.8 billion as at the end of September 2019 to KSh 1,421.8 billion as at the end of September 2020. Multilateral remained the leading source of public and publicly guaranteed external debt accounting for 38.8 per cent of the total stock of public external debt during the quarter under review, as highlighted in Table 2.

Outstanding public and publicly guaranteed external debt from commercial banks and bilateral lenders accounted for 30.6 per cent and 30.1 per cent, respectively, during the review period.

International Merchandise Trade

International merchandise trade deficit narrowed by 14.7 per cent in third quarter of 2020 compared to the same period in 2019, as shown in Figure 1 and Table 3. Total exports rose by 11.1 per cent to KSh 163.7 billion, while imports declined by 6.2 per cent to KSh 420.8 billion during the period under review. Consequently, the volume of trade declined slightly from KSh 595.9 billion in the third quarter of 2019 to KSh 584.5 billion in the third quarter of 2020.

Value of Domestic Exports

During the third quarter of 2020, earnings from domestic exports increased to KSh 144.8 billion from KSh 125.3 billion in the corresponding quarter of 2019 as presented in Figure 2 and Annex 1. This was driven mainly by an increase in the export values of principal export commodities including tea, horticulture, titanium ores and concentrates; and articles of apparel and clothing accessories which jointly rose by 16.0 billion. Similarly, export earnings from tobacco and tobacco manufactures; and coffee increased by 73.4 per cent and 18.4 per cent to KSh 4.0 billion and KSh 4.9 billion respectively, in the third quarter of 2020.

Figure 2: Domestic Exports of Selected Commodities, 3rd Quarter, 2018-2020

Export earnings from food and beverages by Broad Economic Category, accounted for 44.1 per cent of the total domestic exports and was valued at KSh 63.9 billion, an increase of 17.4 per cent from the third quarter of 2019, as illustrated in Annex 7. On the contrary, domestic exports of fuel and lubricants declined by 27.4 per cent to KSh 2.0 billion in the review period compared to a similar period in 2019. This was occasioned by a marked decline in the value of exported primary fuels and lubricants compared to the corresponding quarter of the previous year.

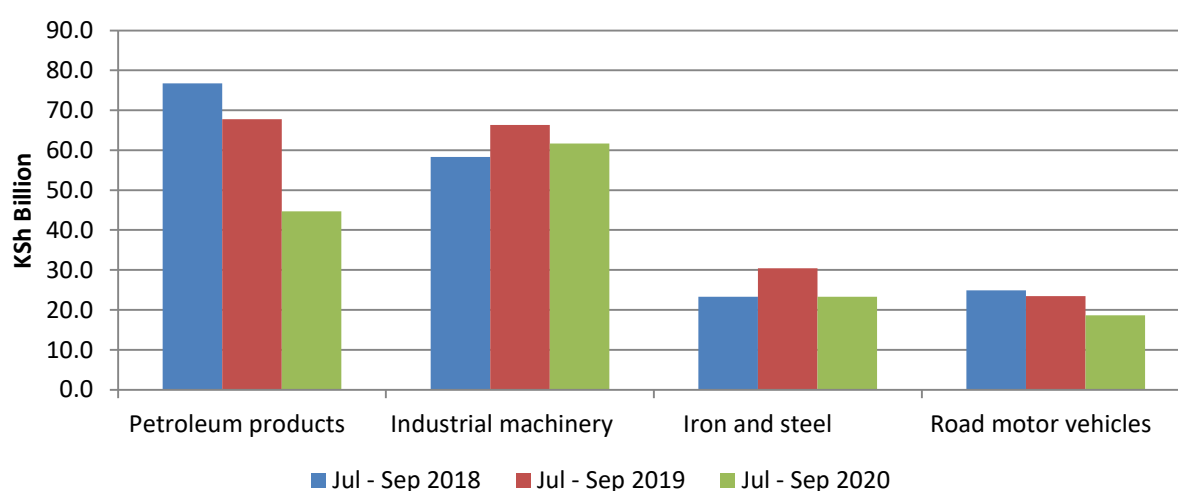

Value of Imports

The value of imports decreased by 6.2 per cent to KSh 420.8 billion in the third quarter of 2020 from KSh 448.6 billion in a similar quarter of 2019. During the review period, there were notable declines in import expenditures of major import commodities which included petroleum products (34.1%), road motor vehicles (20.5%), industrial machinery (7.0%); and iron and steel (23.5%), as shown in Figure 3. The decline in imports of these principal commodities, jointly amounted to KSh 39.7 billion as outlined in Annex 4. Conversely, the import bill on animal and vegetable oils; and medicinal and pharmaceutical products rose by 78.5 per cent and 61.2 per cent to KSh 21.8 billion and KSh 23.6 billion, respectively, over the same period.

During the period under review, quantities of imported animal and vegetable oils; and chemical fertilizers rose by 41.7 per cent and 73.8 per cent to 296,569 metric tonnes and 231,582 metric tonnes respectively, as shown in Annex 4. However, import quantities of unmilled wheat, iron and steel, and secondhand clothing declined by 29.4, 11.5 and 70.8 per cent respectively, compared to the same period in 2019.

Analysis of import expenditure by Broad Economic Category, indicated a decline in majority of the groupings as shown in Annex 8. Expenditure on import of fuel and lubricants dropped significantly from KSh 77.7 billion in the third quarter of 2019 to KSh 54.6 billion in the quarter under review. This decline was mainly on account of a 31.6 per cent decrease in the value of imports of processed fuel and lubricants.

Figure 3: Value of Imports of Selected Commodities, 3rd Quarter, 2018-2020

Direction of International Merchandise Trade

During the third quarter of 2020 total export earnings grew by 11.1 per cent to KSh 163.7 billion from KSh 147.2 billion in the third quarter of 2019 as presented in Annex 5. Africa accounted for 41.1 per cent of the total exports, exhibiting an increase of 16.6 per cent compared to the same quarter of 2019. The growth was mainly on account of an increase in exports to Uganda (34.1%) and South Sudan which more than doubled. The increase in domestic exports of crude palm oil, peas, and lubricants to Uganda and re-exports of food preparations to South Sudan were partly attributable to the rise in exports to these destinations.

Total exports to the European Union accounted for 16.0 per cent of the total exports in the period under review and amounted to KSh 26.1 billion. Increased domestic exports of cut flowers to the Netherlands and coffee to Germany as well as re-exports of kerosene type jet fuel to the two destinations resulted to the growth in export revenues from the European Union.

Total exports to the United Kingdom exhibited an increase of 27.3 per cent to KSh 12.1 billion mainly on account of an increase in domestic exports of cut flowers and vegetables.

During the period under review, export earnings from Asia slightly decreased to KSh 36.9 billion from KSh 38.0 billion in the same quarter of 2019, translating to a 3.1 per cent decline. This could be partly attributable to a decrease in re-exports of Kerosene type jet fuel to the United Arab Emirates and domestic exports of crude petroleum oil to Singapore. On the other hand, exports to Pakistan increased by 35.5 per cent to KSh 13.3 billion, over the same period, largely driven by domestic exports of tea.

Total exports to America declined by 9.2 per cent to KSh 14.0 billion in the quarter under consideration. This development was as a result of significant decrease in the domestic exports of shelled nuts to the United States of America.

The total import bill during the third quarter of 2020, declined by 6.2 per cent from KSh 448.6 billion in the third quarter of 2019 to KSh 420.8 billion as shown in Annex 6. Asia remained the major source of imports. However, expenditure on imports from this region declined by 3.1 per cent and accounted for 63.7 per cent of the total imports. The decline was mainly as a result of a 43.5 per cent decrease in imports from United Arab Emirates (and a 26.4 per cent decrease in imports from Saudi Arabia. This reduction was largely attributable to a decrease in imports of petroleum products. On the contrary, imports from China and Malaysia increased by 18.7 per cent and 73.6 per cent, respectively. The rise was partly as a result of

increased imports of rail locomotives from China and crude palm oil from Malaysia.

The value of imports from Africa declined by 31.8 per cent from KSh 66.6 billion in the third quarter of 2019 to KSh 45.4 billion in the third quarter of 2020. This was largely as a result of decreases in imports from South Africa (46.6%) and Uganda (41.7%). Commodities that exhibited significant declines from these source markets were iron and steel from South Africa, and milk from Uganda.

The value of imports from America reduced from KSh 23.8 billion in the third quarter of 2019 to KSh 21.4 billion in the review period partly on account of decreased imports of aircraft engines; aeroplanes and other aircrafts from the United States of America.

Similarly, the import bill from Austria declined by 75.1 per cent in the quarter under review mainly due to reduction in imports of machines for making bags, sacks or envelopes.
