Preface

The Statistical Abstract is published annually by the Kenya National Bureau of Statistics; Nairobi. It is a single source of data covering a series of 5 years or more from year of publication. The Abstract enables any information seeker to get complete time series data of the Kenyan Economy from one SINGLE official source.

The current Abstract therefore contains a comprehensive set of information that is useful for any form of analytical work.

Any enquiries relating to this publication should be addressed to the Director General, Kenya National Bureau of Statistics, Real Towers, Upper Hill along Hospital Road. Subscription correspondence may be addressed directly to the Head Librarian in the same building.

The abstract is a single source of data covering a series of 5 years or more from year of publication. It enables any information seeker to get complete time series data of the Kenyan Economy from one SINGLE official source

Kenya National Bureau of Statistics

Vision

To be a global leader in the provision of quality statistical services.

Mission

To provide, manage and promote quality statistical services through utilization of best practices for evidence-based decision making.

Core Values

The Bureau is committed to upholding values of Professionalism, Integrity, Confidentiality, Customer focus, Innovation and Team work (PICCIT) as the guiding principles in production of statistics.

Organization of KNBS

The management of the Bureau is vested in The Board of Directors, The Director General is the Chief Executive Officer of KNBS and Secretary to the Board.

Kenya National Bureau of Statistics further comprises of five Directorates namely;

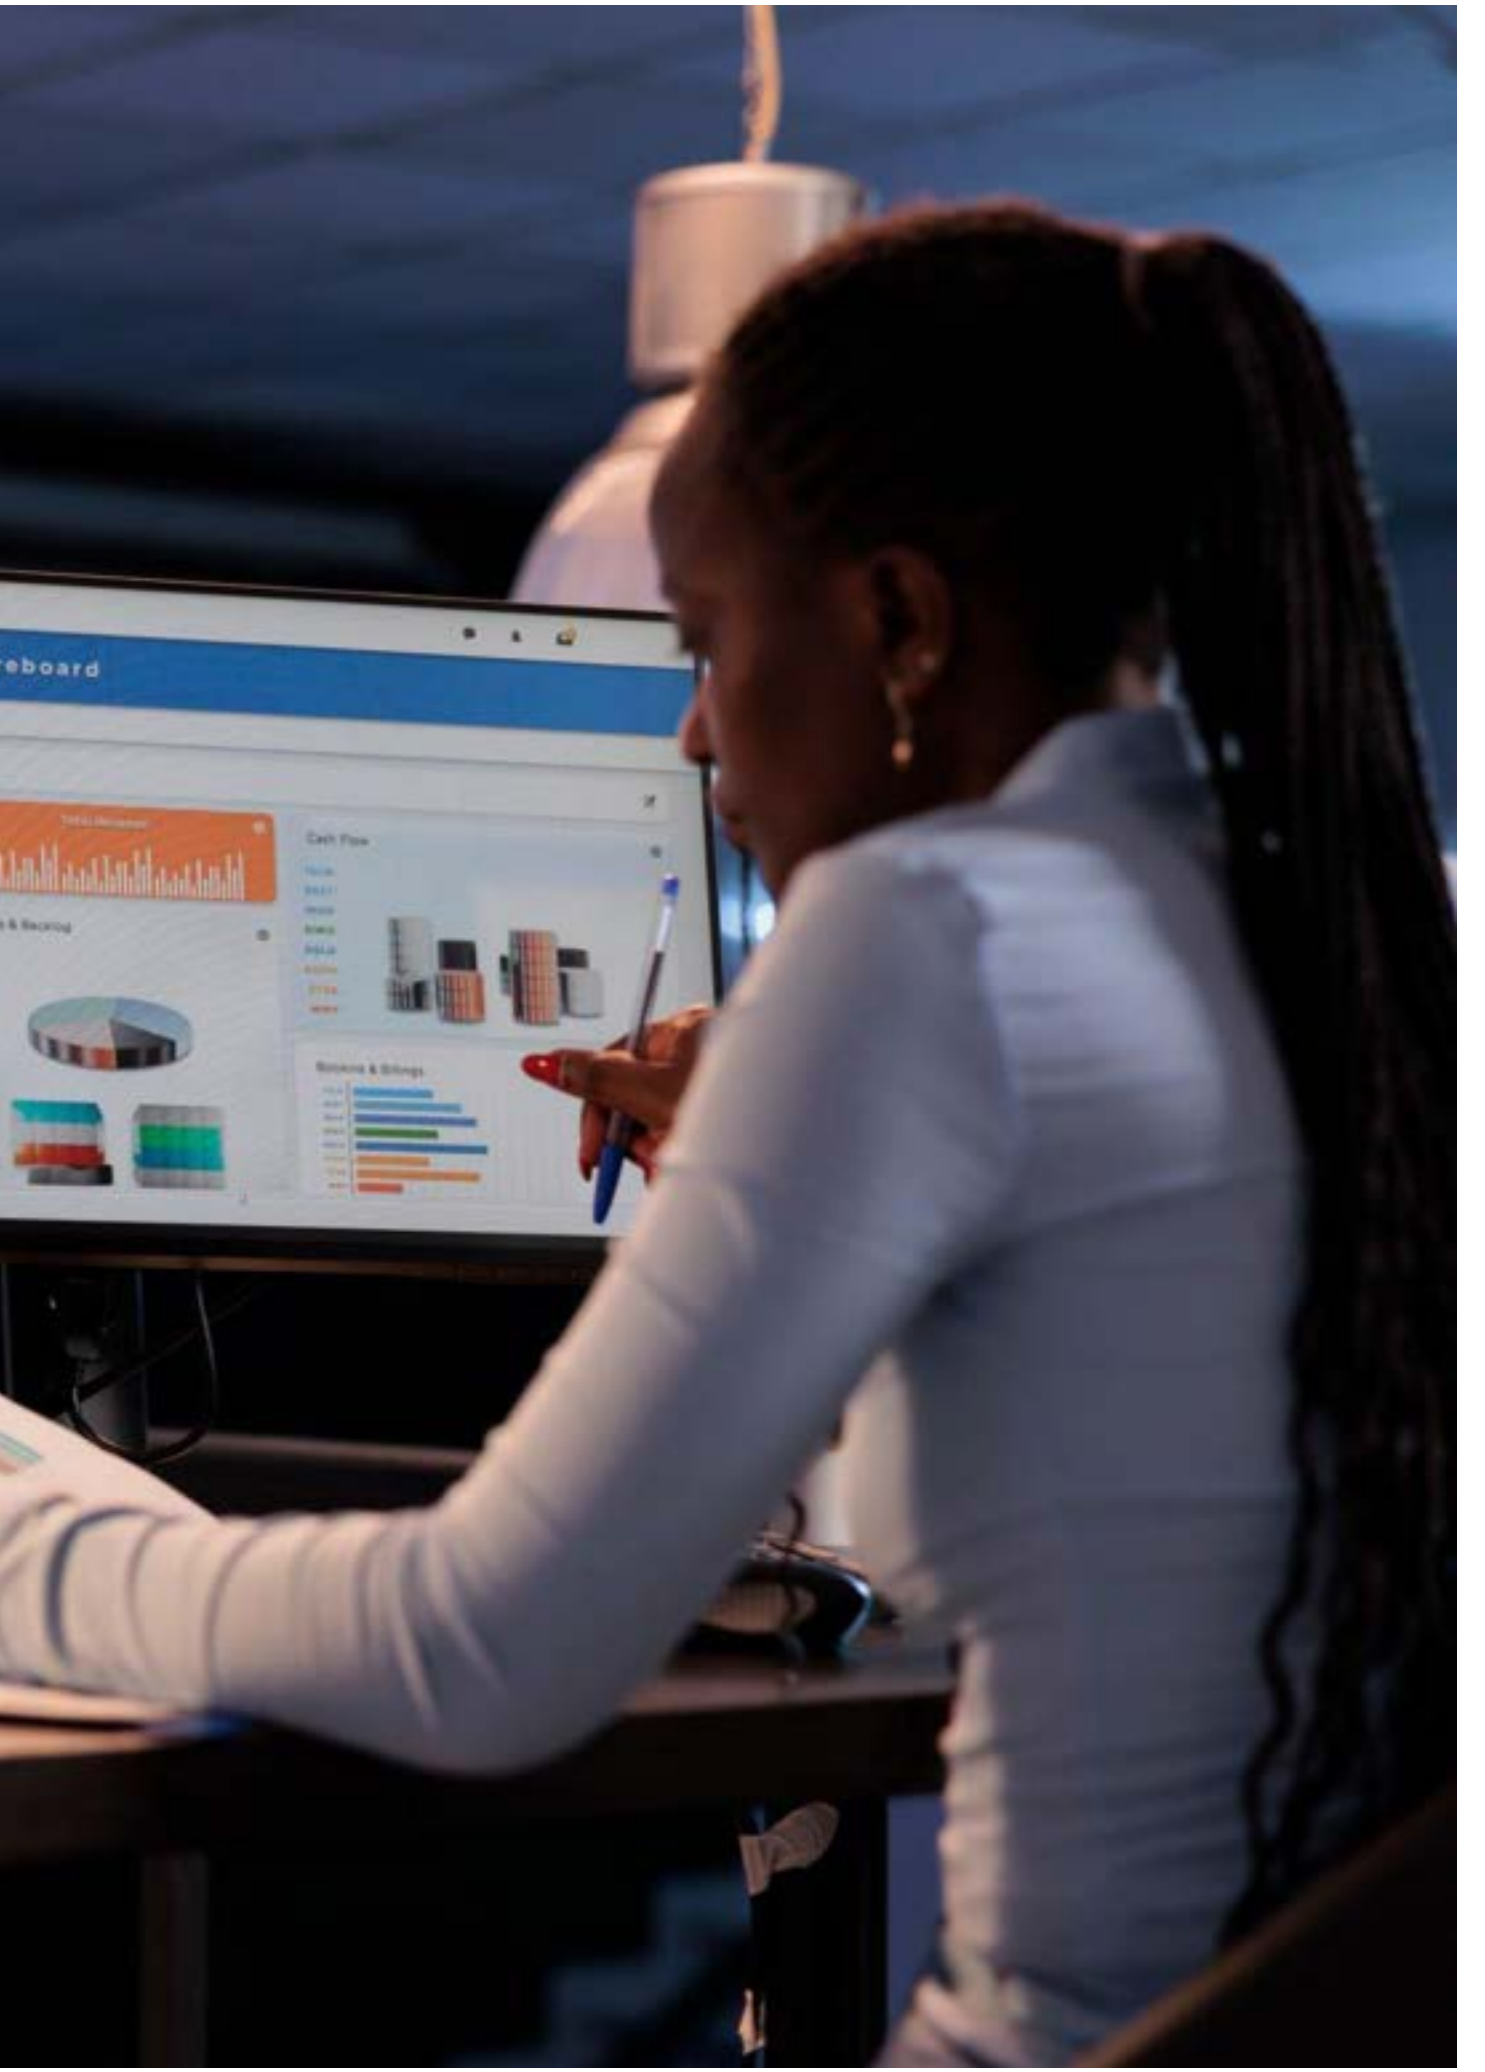

- Production Statistics
- Statistical Coordination and Methods
- Macroeconomic Statistics
- Population and Social Statistics
- Corporate Services

Mandate

To collect, analyze and disseminate statistical information. The Bureau is also the custodian of official statistical information, and coordinator of the National Statistical System.

The Bureau is committed to upholding values of Professionalism, Integrity, Confidentiality, Customer focus, Innovation and Team work (PICCIT) as the guiding principles in production of statistics

Introduction

This Abstract has been prepared by the Kenya National Bureau of Statistics. The tables have been compiled partly from statistics collected directly by the Bureau through Surveys and Censuses and also from statistics compiled by other Ministries, Departments and Agencies (MDAs) including county Governments. The source of the statistical data is shown under each table.

The Kenya National Bureau of Statistics is also responsible for the preparation of the Economic Survey and Leading Economic Indicators in which emphasis is placed on current statistics for which monthly and quarterly series are available. In addition, reports are published on the various regular and ad hoc statistical surveys undertaken by the Bureau.

Whereas these publications aim at providing statistical coverage of the important fields of economic, financial and social activity in Kenya, the published material may not meet detailed requirements of all users. Additional information, whenever available, will be supplied by the Bureau on request, although in certain circumstances, depending on the amount of work involved in extracting the required particulars, it may be necessary to make a charge. All enquiries relating to statistical matters should be addressed to: -

The Director General
Kenya National Bureau Of Statistics
P.o. Box 30266-00100 Nairobi;

E-Mail: Directorgeneral@Knbs.or.ke

Symbols and conventions used

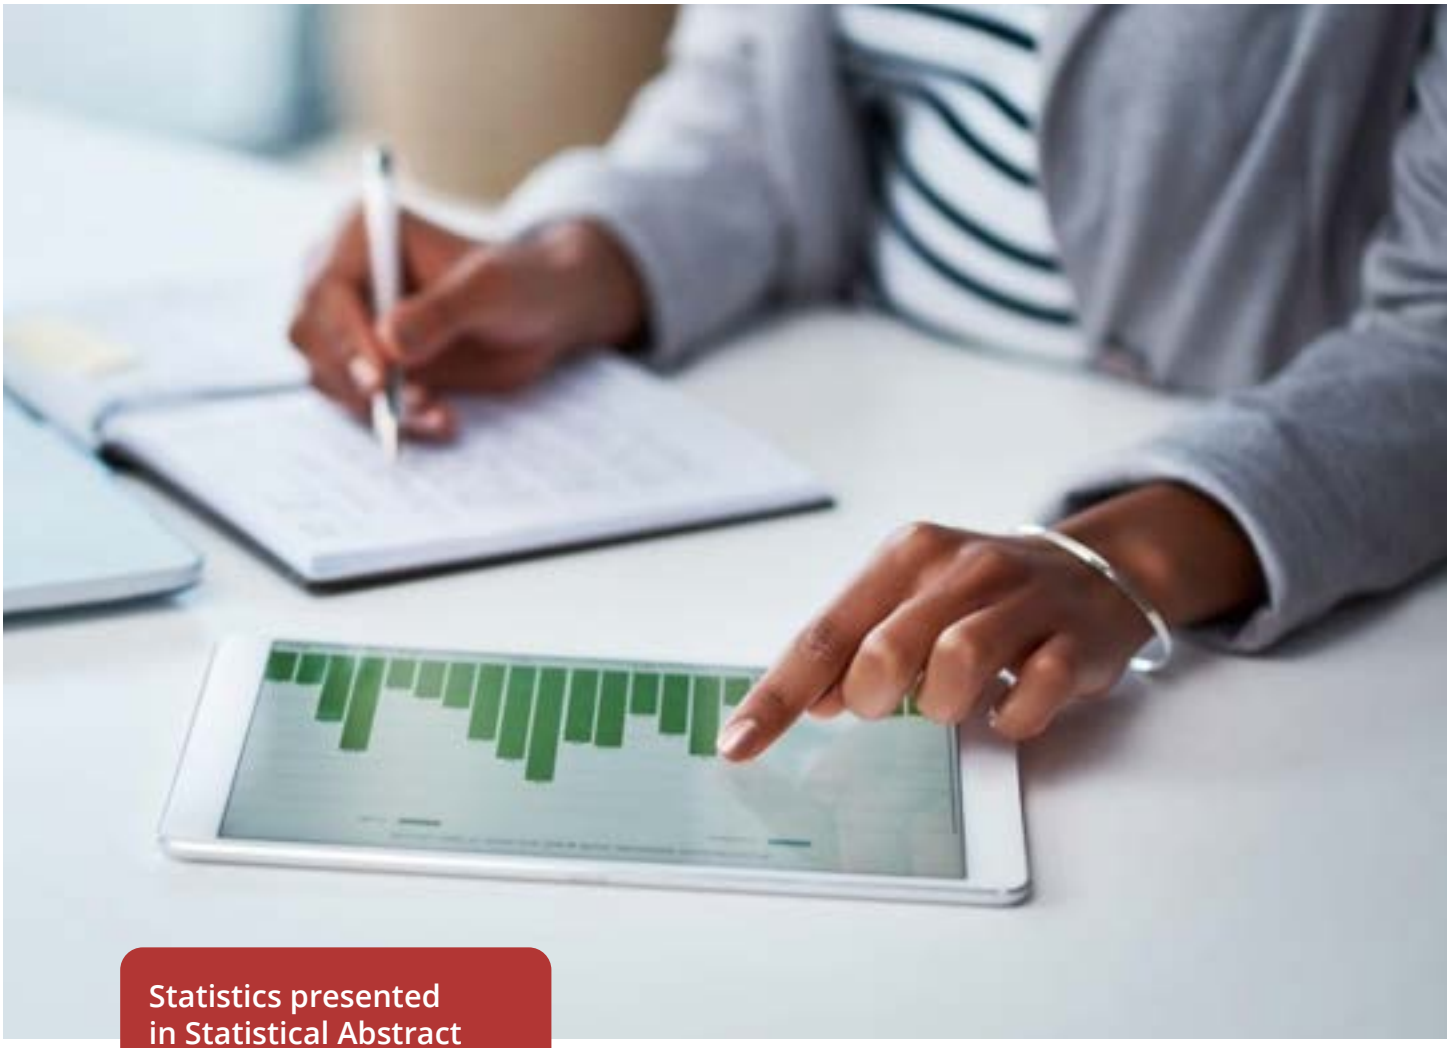

The following symbols have been used in this publication
" " Means nil or negligible (less than half the final digit shown).
".." Means figures not available. " * " Means provisional
" + " Means revised

"|" between consecutive figures means they have been compiled on a different basis and are not strictly comparable. The nature of the difference is usually indicated in a footnote.

Rounding of Figures: In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Kenya Counties Map

Statistics presented in Statistical Abstract reports are produced in line with internationally sound and scientific methods that are anchored on the fundamental principles of producing official statistics

Data Quality Declaration: The Statistical Abstract report is an annual publication prepared by the Kenya National Bureau of Statistics that provides socio-economic statistical information covering a five-to eight-year period.

Data Sources: The statistics published in the Statistical Abstract reports are based on a wide variety of sources including own surveys and censuses, studies carried out by other institutions and administrative data collected by Ministries, Departments and Agencies; County Governments; and establishments. The sources of data are always recognized.

Accuracy and Reliability: All censuses and surveys conducted by the Bureau are based on international standards and methods. Sampling and non-sampling errors that may occur in a census or survey are always disclosed. Data from administrative sources are subject to international best practices on statistics and are verified and validated through sectoral Technical Working Groups.

Periodicity: Although the Statistical Abstract report is an annual publication, data may also be presented on quarterly and monthly basis for the review period.

Consistency: The Bureau maintains a compendium of statistical definitions. The Bureau has endeavored to provide the same format of statistical tables as in previous years to enable consistency and trend comparison over time.

Accessibility: KNBS reports are disseminated by various platforms including publications accessible from the KNBS Library, open data portals and website: www.knbs.or.ke, press releases and social media.

Timeliness: The report is produced annually, by the end of November of the review year.

Constitution of Kenya

Kenya's current constitution was enacted on 27th August 2010 replacing the previous one that had been in place since Kenya's independence in 1963. It provides the Structure of Government of Kenya to consist of the Executive, Legislature, Judiciary and Devolved Governments.

The Executive

The President, the Deputy President, and the cabinet constitute the executive arm of the Kenyan government. The President is the Head of State and Government, Commander-in-Chief of the Kenya Defense Forces, and the Chairperson of the National Security Council.

The President is elected directly by all registered voters for a five-year term. For a person to be declared winner of the presidential vote, the candidate must receive more than 50 per cent of the total votes cast, plus at least 25 per cent of the votes cast in more than half of the counties. One can only serve as president for a maximum of two terms.

The Deputy President is the President's principal assistant. During the presidential election, each presidential candidate nominates a running mate. Upon election, this running mate becomes the Deputy President.

The cabinet comprises of the President, the Deputy President, the Attorney General, and 14 to 22 cabinet secretaries. The President appoints the cabinet secretaries, but the appointments must be approved by the National Assembly.

NOTE: In the Constitution 2010, Cabinet Secretaries are appointed from outside Parliament and the President and the Deputy President are no longer Members of the Parliament.

The Legislature (Parliament)

As per Article 93 of the Constitution 2010, the Parliament consists of the National Assembly and the Senate with membership of 418 including the speakers of the two Houses.

(a) The National Assembly

Article 97 of Constitution of Kenya provides for the membership of the National Assembly comprising of the Elected and nominated Members as follows:
Ex-officio- Speaker: **1**
Elected Members from single Member Constituency: **290**
Elected Women from each County Constituting a single member Constituency: **47**
Nominated Members[1]: **12**

[1] The National Assembly consists of twelve members nominated by parliamentary political parties according to their proportion of members of the National Assembly in accordance with Article 90, to represent special interests including the youth, persons with disabilities and workers.

(b) The Senate

Article 98 of the Constitution provides for the membership of the Senate consisting of the elected and nominated Senators as follows:-

Ex-officio- Speaker: **1**
Elected Senators from each of the 47 Counties: **47**
Nominated Women Senators: **16**
Nominated Senators (one man and woman) representing the youth: **2**
Nominated Senators representing persons with disabilities: **2**

The Judiciary

The Constitution creates an independent judiciary consisting of the courts of law and tribunals. The Chief Justice is the head of the judiciary, and is appointed by the President on the recommendation of the Judicial Service Commission. This is subject to the approval of the National Assembly.

Under the Kenya constitution, the Supreme Court is the highest court in Kenya. The Chief Justice is the President of the Supreme Court. This court also comprises the Deputy Chief Justice and five other judges.

The Court of Appeal is the second highest court in Kenya. It comprises of at least 12 judges and is headed by a President of the Court of Appeal. The court only has appellate jurisdiction over appeals from the High Court and other courts and tribunals.

The third highest court in Kenya is the High Court. The High Court has unlimited original jurisdiction in criminal and civil matters. The court also has supervisory powers over the subordinate courts.

The constitution mandates Parliament to establish special courts to determine disputes related to employment and labour relations, land and environmental matters. These special courts have equal status with the High Court. The High Court does not have any jurisdiction over matters handled exclusively by these special courts.

The Devolved Governments

The Constitution establishes 47 counties, each with its own government. County governments consist of a county assembly and a county executive. The county assembly is made up of members elected from different wards in the county. The Governor is the head of the county executive. Voters in each county elect their governor and deputy governor directly. The Governor then appoints other members of the county executive committee, with the approval of the county assembly.

Labour

Notes, Definitions and Coverage

Most tables in this section have been derived from the Annual Enumeration of Employees and Self-employed Persons, which takes place every year at the end of June. The annual wage bill is estimated from monthly data - the reported earnings for the month of June being multiplied by twelve.

Wage employment figures as shown in this section may not compare with those shown elsewhere in the Abstract, e.g. in the Industrial Statistics. This is due to differences in coverage, timing, etc. between the annual enumeration of employees and the other enquiries in which information on employment is also collected.

Public sector includes National Government, Parastatal Bodies, and County Governments. All private establishments in urban areas, large-scale farmers and other large-scale enterprises located in the rural areas as well as the public sector establishments which are engaged in industrial, commercial, agricultural and other activities are asked to state their main activity. This forms the basis of industrial classification.

Earnings as shown in this section are lower than the estimate of factor income going to employees because they exclude pensions, employers' contributions to the National Social Security Fund or private provident funds and personal emoluments for the armed forces

Wage employment figures include casual employees, part-time workers, directors and partners serving on a regular basic salary contract. Self-employed persons and family workers who do not receive regular wages or salaries are excluded. Employment in the informal sector of the economy is not included in the Abstract. Also excluded are employment figures for rural small-scale agriculture and pastoralists activities.

Earnings or wages cover all cash payments, including basic salary, cost of living allowances, profit bonus, together with the value of rations and free board, and an estimate of the employer's contribution towards housing. Earnings as shown in this section are lower than the estimate of factor income going to employees because they exclude pensions, employers' contributions to the National Social Security Fund or private provident funds and personal emoluments for the armed forces. Earnings in informal sector, rural small scale agriculture and pastoralists activities are excluded.

The economic classification used in this chapter is a slightly modified version of the United Nations' 4-digit international Standard industrial Classification Revision 4.

Size distribution of establishments

Manufacture of other textiles n.e.c.	189	198	209	190	213
Manufacture of wearing apparel, except fur apparel	31,640	32,842	35,141	30,081	33,324
Tanning and dressing of leather; dressing and dyeing of fur	1,870	1,887	1,902	1,242	1,301
Manufacture of luggage, handbags and the like, saddlery and harness	497	498	502	454	494
Manufacture of footwear	4,649	4,630	4,639	4,198	4,343
Sawmilling and planing of wood	1,404	1,389	1,379	1,366	1,376
Manufacture of veneer sheets and wood-based panels	6,762	6,688	6,641	6,577	6,587
Manufacture of builders' carpentry and joinery	857	848	842	834	834
Manufacture of wooden containers	202	206	209	209	213
Manufacture of other products of wood; manufacture of articles of cork, straw and plaiting materials	87	85	86	71	82
Manufacture of pulp, paper and paperboard	5,492	5,558	5,636	5,050	5,578
Manufacture of other articles of paper and paperboard	3,823	3,850	3,904	3,096	3,470
Printing	8,064	7,999	7,967	6,212	7,183
Manufacture of refined petroleum products	253	240	246	0	-
Manufacture of basic chemicals	1,523	1,535	1,552	1,636	1,686
Manufacture of pesticides and other agrochemical products	1,162	1,160	1,208	1,075	1,198
Manufacture of paints, varnishes and similar coatings, printing ink and mastics	3,544	3,633	3,735	3,638	3,815
Manufacture of soap and detergents, cleaning and polishing preparations, perfumes and toilet preparations	5,661	5,576	5,537	5,039	5,382
Manufacture of other chemical products n.e.c.	437	437	440	461	495
Manufacture of man-made fibres	3,516	3,520	3,545	3,553	3,553
Manufacture of pharmaceuticals, medicinal chemical and botanical products	5,714	5,788	5,881	5,616	5,893
Manufacture of rubber tyres and tubes; retreading and rebuilding of rubber tyres	634	642	652	619	652
Manufacture of other rubber products	281	287	292	277	294
Manufacture of plastics products	19,506	19,189	20,085	19,243	20,206
Manufacture of glass and glass products	1,295	1,309	1,327	1,259	1,327
Manufacture of refractory products	1,179	1,162	1,154	1,013	1,115
Manufacture of other porcelain and ceramic products	385	382	380	361	374

Retail prices and consumer expenditure

Notes and Definitions

(a) Table 3.16 (a) presents the weights used for the outgoing Kenya Consumer Price Indices which were derived from the 2005/06 Kenya Integrated Household Budget Survey (KIHBS).

This old CPI had a base period of February 2009=100 and were compiled and published from February 2009 to January 2020. Nairobi Lower Income CPI was designed to measure changes in retail prices of goods and services consumed by households with monthly income of up to KSh 23,671 per month.

Middle income ranged from KSh 23,671 to KSh 120,000 while upper income were households with income of over KSh 120,000.Rest of Urban areas refer to those urban areas representing each of the regions outside Nairobi .

(b) Table 3.16 (b) presents the weights used for the new Kenya Consumer Price Indices which were derived from the 2015/16 Kenya Integrated Household Budget Survey (KIHBS). The new CPI has a base period of February 2019=100 and has been compiled and published from March 2020.

In the new CPI, Nairobi Lower Income constitute households with monthly income of up to KSh 46,355 per month. The Middle Income ranges from KSh 46,356 to KSh 185,394 while Upper Income constitutes households with income of over KSh 185,395.

The Rest of Urban areas refers to those urban areas representing each of the regions outside Nairobi .

Public Finance

Notes and Definitions

The compilation of Government Finance Statistics (GFS) under public finance, uses the GFS framework in accordance with the Government Finance Statistics Manual (GFSM2014). This Chapter highlights the overall performance and financial position of the general government and public sector. Some of the key concepts used include:

Revenue: This is an increase in net worth resulting from a transaction.

Expense: This is a decrease in net worth resulting from a transaction.

Expenditure: This is the sum of expense and the net investment in nonfinancial assets.

Nonfinancial assets: These are economic assets that are not financial in nature. Nonfinancial assets are stores of value and provide benefits either through their use in the production of goods and services or in the form of property income.

Net Lending/Borrowing: This is the summary measure indicating the extent to which government is either putting financial resources at the disposal of other sectors in the economy or abroad or utilizing the financial resources generated by other sectors in the economy or from abroad.

General Government: Consists of non-market resident institutional units that fulfill the functions of government as their primary activity and perform the principal economic functions of government. In the context of Kenya, the general government comprise of Central Government (consisting of Budgeted Central Government and Extra Budgetary Units), County Government (consisting of the 47 counties) and the 2 Social Security Funds.

Central/National Government: Consists of the institutional unit(s) of the central government plus non-market Non-Profit Institutions (NPIs) that are controlled by the Central Government. The political authority of the Central Government extends over the entire territory of the country.

Budgetary Central Government: A single unit of the Central Government that encompasses the fundamental activities of the national executive, legislative and judiciary powers.

Extra Budgetary Units: These are non-market institutional entities with individual budgets not fully covered by the Budgetary Central Government.

Local/County Government Units: These are institutional units whose fiscal, legislative and executive authority extends over the smallest geographical areas distinguished for administrative and political purposes.

Social Security Funds: These are government units that are devoted to the operation of one or more social security schemes.

Earnings as shown in this section are lower than the estimate of factor income going to employees because they exclude pensions, employers' contributions to the National Social Security Fund or private provident funds and personal emoluments for the armed forces

Public Corporations: Consist of all resident financial and non-financial corporations controlled by government units or by other public corporations and transact at economically significant prices.

Public Sector: Consists of all resident institutional units controlled directly, or indirectly, by resident government units. This includes all units of the General Government sector and resident public corporations.

Debt: A debt instrument is defined as a financial claim that requires payment(s) of interest and/or principal by the debtor to the creditor at a future date. The following instruments are debt instruments: Special Drawing Rights (SDRs), currency and deposits, debt securities, loans, insurance, pension, and standardized guarantee schemes, other accounts payable.

Classification of Functions of Government (COFOG): This is a detailed classification of functions of socioeconomic objectives that general government units aim to achieve through various kinds of expenditure. In GFS, COFOG is applied only to expenditure, comprising expense and the net investment in non-financial assets.

Flows: These are monetary expressions of economic actions and effects of events that results in changes in economic value within a reporting period.

Stocks: These are the outstanding amounts of assets and liabilities at a given point in time (e.g., end of month, quarter, or year) affected by all flows since the asset or liability was first acquired.

Nonfinancial assets: Nonfinancial assets are economic assets other than financial assets. Nonfinancial assets may be produced or non-produced.

Financial assets: Financial assets consist of financial claims and gold bullion held by monetary authorities as reserve assets. Liability: A liability is established when one unit (debtor) is obliged, under specific circumstances, to provide funds or other resources to another unit (creditor).

Net worth: The net worth of an institutional unit (or group of units) is the total value of assets (nonfinancial and financial) minus the total value of liabilities.

Consolidation: This is the process of eliminating the flows and stock positions between the subsectors of the public sector being consolidated (grouped together) to avoid double counting. It changes the aggregates without altering balancing items.

Energy

Notes, Definitions and Coverage

Notes
Energy Statistics in the Statistical Abstract are compiled in line with the International Recommendation on Energy Statistics (IRES) and using the Standard Industrial Energy Classifications (SIEC) codes for the Energy Products.

Scope
The statistics presented cover Electricity generation and consumption together with consumption of fuel oils. A summary of the production, trade and consumption of Primary Energy is also presented at the end of the Energy Section.

Data Sources
Statistics collected from various institutions are primarily extracted from administrative data while Biomass energy demand is estimated from consumption patterns obtained from various Censuses/Surveys undertaken by Kenya National Bureau of Statistics (KNBS).

Definitions
Energy: Heat and Power produced for use by Humans/Machines from fuel commodities or Naturally occurring sources.

Installed Capacity: Maximum amount of electricity that can be generated if a given power plant operates at one hundred percent efficiency.

Cogeneration: Electricity generated from the steam left over from electricity generation in a power plant.

Transmission losses: Electricity lost during transmission and distribution due to such factors as illegal connection or faulty lines.
Fuel: Substances burned as a source of heat or Power. The heat is derived from the combustion process.

Biomass: Fossil fuels taken from Natural resources which were formed from biological and geological processes.

Electricity

Construction

Notes and Definitions

The unit of analysis is the establishment
Construction statistics comprises of new construction and any repairs and maintenance done on construction structures within the reporting period

Building statistics are compiled from data collected on building plans approved and building completed (private and public) from County Governments. This is in form of new buildings, alterations and extensions of existing buildings during the reporting period.

Residential buildings are those buildings which more than half of the floor area is intended for dwelling purposes. Eg single family, or multi family or high-rise residential buildings.

Non-residential buidlings are all other buildings which are not classified as residential and not intended for dwelling purposes eg Industrial buildings, Godowns, Schools, Churches, commercial, institutional, public buildings not occupied as a dwelling, including hotels and motels.

A block of flats/maisionnettes is counted as a single building.

Large construction projects typically will have a longer duration exceeding the reporting period, valuation of such projects depends on progress made and value is taken for the work done within the reporting period.

Earnings Non-residential buidlings are all other buildings which are not classified as residential and not intended for dwelling purposes eg Industrial buildings, Godowns, Schools, Churches, commercial, institutional, public buildings not occupied as a dwelling, including hotels and motels

Some road classes will be classfied to a higher class after construction and upgrading
A superhighway (S)-Highway connecting two or more cities/towns meant to carry safely a large volume of traffic at the highest legal speed of operation.
International Trunk Road (A) -Roads forming strategic routes and corridors, connecting international boundaries at identified immigration entry and exit points and international terminals such as international air or sea ports.
National Trunk Road (B) - Roads forming important national routes,linking national trading or economic hubs, County headquarters and other nationally important centres to each other and to the national capital or to Class A roads.
Primary Road (C) - Roads forming important regional routes,linking County headquarters or other regionally important centers, to each other and to Class A or B roads. Required to collect regional and local traffic and channel it to class A and B roads.
Secondary Road (D) - Roads linking constituency headquarters,Municipal or Town Council Centers and other towns to each other and to higher class roads. Required to collect local traffic from lower class roads and channel it to the higher class roads.
Minor Road (E)- Major Feeder Roads linking important Constituency centres to each other and meant to carry local traffic and to channel it to class D roads.
Special Purpose Roads (F) -Provide direct access to individual or group of properties, and residential areas, or to places of specific social or economic activity, including industrial and commercial areas and government institutions such as National Parks, schools, hospital, prisons and government housing.
