Quarterly Balance of Payments

Third Quarter, 2021

Balance of Payments

The current account deficit expanded by 27.4 per cent from KSh 145.0 billion in the third quarter of 2020 to KSh 184.6 billion in the same quarter of 2021 as presented in Table 1. Merchandise trade deficit increased by 39.6 per cent to KSh 321.8 billion in the third quarter of 2021 on account of 26.5 per cent growth in imports on *f.o.b* basis, mainly due to increase in imports of non-food industrial supplies. During the quarter under review, earnings from exports improved by 7.9 per cent to KSh 176.2 billion boosted by increased exports of horticulture, articles of apparel and clothing accessories, edible products and preparations, and titanium ores and concentrates.

Trade in international services increased significantly from a surplus of KSh 3.2 billion in the third quarter of 2020 to a surplus of KSh 12.0 billion in the corresponding quarter of 2021 reflecting recovery of the services sub-sector. In the third quarter of 2021, services receipts improved by 40.1 per cent to KSh 125.9 billion pushed by increase in travel and transport services receipts following resumption in international travel. Remittance inflows grew by 21.9 per cent to KSh 106.9 billion and consequently, the secondary income account balance registered a surplus of KSh 169.7 billion in the quarter under review, an increase of 30.1 per cent. The resilience in remittances inflows shows increased support of Kenyan families by their relatives living abroad.

During the third quarter of 2021, net financial inflows increased more than four times to KSh 175.0 billion from KSh 39.5 billion, mainly driven by other investment inflows. The stock of gross official reserves went up by 11.9 per cent from KSh 951.0 billion in the third quarter of 2020 to KSh 1,064.2 billion in the same quarter of 2021. However, this was a decline from KSh 1,073.9 billion recorded in the previous quarter. As a result of the 11.9 per cent increase in the stock of gross official reserves, the overall Balance of Payments position posted a deficit of KSh 34.4 billion in the quarter under review from a deficit of KSh 103.9 billion in the same quarter of 2020.

Public and Publicly Guaranteed External Debt

The stock of public and publicly guaranteed external debt rose further by 1.6 per cent to KSh 4,062.5 billion at the end of September 2021 from KSh 3,999.5 billion at the end of June 2021 as highlighted in Table 2. Similarly, the stock of external debt recorded a 10.9 per cent increase in September 2021 compared to the same period in 2020. The year-on-year increase in external debt was largely observed in the stock of debt from multilateral sources which rose from KSh 1,421.8 billion at the end of September 2020 to KSh 1,702.7 billion at the end of September 2021, partly attributable to increased disbursements from the IMF.

Multilateral debt accounted for 41.9 per cent of the total stock of public and publicly guaranteed external debt in September 2021. Debt from commercial banks and bilateral sources similarly increased and accounted for 29.5 per cent and 28.3 per cent, of the outstanding public and publicly guaranteed external debt, respectively, in the same period.

International Merchandise Trade

In the third quarter of 2021, international merchandise trade deficit widened to KSh 365.9 billion from KSh 257.1 billion in the same quarter of 2020, translating to a 42.3 percentage increase, as illustrated in Figure 1 and Table 3. Volume of trade registered an increase of 22.8 per cent in third quarter of 2021 compared to the same quarter of 2020. This remarkable increase resulted from a 28.8 per cent increase in imports and 7.5 per cent growth in exports. Import bill significantly rose from KSh 420.8 billion in third quarter of 2020 to KSh 541.9 billion in corresponding quarter of 2021 on account of non-food industrial supplies. Earnings from exports

marginally increased from KSh 163.7 billion in the third quarter of 2020 to KSh 176.0 billion in the quarter under review driven mainly by increased earnings from horticultural exports.

Value of Domestic Exports

During the period under consideration, domestic exports were valued at KSh 160.2 billion representing a 10.6 percentage increase from the corresponding quarter of 2020, as shown in Annex 1. The growth was largely on account of increase in domestic exports of horticulture, articles of apparel and clothing accessories, edible products and preparations, and titanium ores and concentrates as depicted in figure 2 and Annex 1.

However, earnings from export of tea deteriorated from KSh 30.5 billion in third quarter of 2020 to KSh 27.7 billion in the review period. The decline was largely attributable to the decline in the export quantities that fell from 138.6 thousand metric tonnes to 124.5 thousand metric tonnes as shown in Annex 2.

Figure 2: Domestic Exports of Selected Commodities, 3rd Quarter, 2019-2021

Under the Broad Economic Category, significant increases were exhibited in the domestic exports of non-food industrial supplies and consumer goods which rose by 20.5 per cent and 16.3 per cent, respectively as shown in Annex 7. On the other hand, revenue from domestic exports of food and beverage commodities continued to account for the largest share of the total export earnings, valued at KSh 65.1 billion in the quarter under review.

Value of Imports

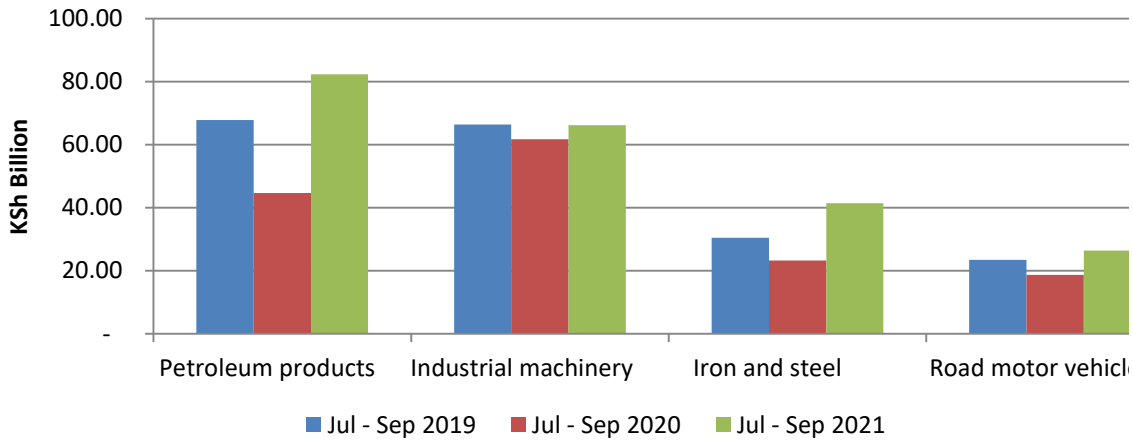

Total value of imports in the third quarter of 2021 amounted to KSh 541.9 billion compared to KSh 420.8 billion in the similar quarter of 2020. The significant growth in import expenditure was largely on account of increase in imports of petroleum products, and iron and steel, which recorded an increase of 84.3 per cent and 78.0 per cent, respectively, as displayed in Figure 3. Similarly, in the same period, increases were registered in the imports of road motor vehicles (41.5%), plastics in primary and non-primary forms (40.7%), and animal and vegetable oils (43.5%).

On the contrary, over the same period, declines were exhibited in the imports of medicinal and pharmaceutical products (9.3%); cement clinkers (59.6%); and telecommunication equipment and parts (22.6%) as presented in Annex 3. The reduction in the value of cement clinker was largely associated with import quantities of cement clinkers which dropped from 749.0 thousand metric tonnes to 164.4 thousand metric tonnes as shown in Annex 4.

In the Broad Economic Category, imports of non-food industrial supplies accounted for 38.9 per cent of the total import expenditure and were valued at KSh 211.0 billion, as depicted in Annex 8. Imports of fuel and lubricants went up by

81.4 per cent to KSh 99.1 billion in the third quarter of 2021 compared to the same quarter of 2020. The phenomenal rise was largely attributable to the increased demand of the product following continual easing of travelling and other restrictions that had been imposed to curb the spread of corona virus disease.

Figure 3: Value of Imports of Selected Commodities, 3rd Quarter, 2019-2021

Direction of International Merchandise Trade

The total value of export earnings in the third quarter of 2021 improved by 7.5 per cent compared to the corresponding quarter of 2020 as presented in Annex 5. The largest portion of total revenue from exports was from the Africa continent, highly boosted by earnings from Ethiopia which more than doubled, and Tanzania which rose by 56.2 per cent, during the period under review. This growth partly resulted from increase in the value of domestic exports of food preparations for infants to Ethiopia and electric generating sets and converters to Tanzania. However, over the same period, exports to Uganda and South Sudan shrunk by 12.7 per cent and 37.5 per cent, respectively.

Export earnings from the European Union marginally rose from KSh 26.1 billion in the third quarter of 2020 to KSh 26.8 billion in the third quarter of 2021. The bulk of these earnings was attributable to the Netherlands which accounted for 50.9 per cent of all the total export earnings from the region. Similarly, exports to Asia recorded a slight increase of 3.3 per cent from KSh 36.9 billion in 2020 in the period under review. The slow growth was partly due to a decline in domestic exports of tea to Pakistan which accounts for the largest share of total export earnings from the region. On the other hand, value of exports to the United States of America rose

significantly from KSh 13.1 billion in the third quarter of 2020 to KSh 17.2 billion, translating to a growth of 31.2 per cent. This increase was partly due to an increase in exports of macadamia nuts and articles of apparel and clothing accessories.

In the period under review, import expenditure went up by 28.8 per cent from KSh 420.8 billion in the corresponding quarter of 2020, as shown in Annex 6. The largest share of the import bill was to the Asia continent, with China accounting for 31.6 per cent of the total import from the region. Other countries in this region that contributed largely to the higher import bill were India and Malaysia. The rise was occasioned by increase in imports of gas oil and semi-finished products of iron and non-alloy steel from India, and crude palm oil from Malaysia.

Africa continent accounted for 10.9 per cent of the total imports in the period under review while exhibiting an increase of 30.3 per cent from the corresponding quarter of 2020. The significant increase was largely occasioned by imports from Tanzania which rose from KSh 8.8 billion in third quarter of 2020 to KSh 19.1 billion in a similar period of 2021. In addition, imports from Australia presented a five-fold increase, largely on account of increase in imports of grain sorghum, wheat and meslin.

Expenditure on imports from America rose from KSh 21.4 billion in the third quarter of 2020 to KSh 33.6 billion in the review period. The increase in the import expenditure was largely driven by increase in imports from United States of America which rose by 87.9 per cent, from KSh 14.0 billion to KSh 26.2 billion.
