The Statistical Abstract

Kenya's Statistical Abstract is your single source of statistics covering a series of years. The Abstract enables you to get the complete time series of data of the Kenyan Economy from one **SINGLE** official source. The current volume of the Abstract contains a comprehensive set of information that is useful for any form of analytical work.

Vision

The Vision of the Bureau is "to become a center of excellence in statistical production and management for national development".

Mission

The mission of the Bureau is "to coordinate and supervise the National Statistical System; produce and disseminate comprehensive, integrated, accurate and timely statistics required mainly to inform national development initiatives and processes; and develop and maintain a socio-economic national database".

The Organization

The Central Bureau of Statistics comprises of six divisions

Industrial and Labour Statistics
Agriculture and Nutrition Statistics
Population and Other Social Statistics
Data Processing, Research and Publications
Macroeconomic and National Income Accounts Statistics
National Sample Survey and Evaluation Programme and Field Administration

Teamwork

Together with users and producers of data, and development partners we are committed to face challenges and opportunities of the 21st Century.

Director
Central Bureau of Statistics

TABLE OF CONTENTS

	Table No.	Page No.
CONSTITUTION	1	
Parliament		
Members of the National Assembly, (As at 6th October 2003)	1	3
LAND AND CLIMATE		
Area by province and district, (As at 31st December, 2000)	2	4
Lakes, Mountains and National Parks, (As at 31st December, 2000)	3	4
Registration of land, 1980-1990	4	5
District sizes by land categories, December 1995	5	6 - 7
Monthly rainfall for main stations, 1994-1995	6(a-b)	8 - 11
Annual rainfall totals for main stations, 1988 - 1995	7	12
Temperature for main stations, 1990 - 1994	8	13 - 14
Relative humidity, main stations, 1991 - 1995	9	15
Sunshine main stations , 1991 - 1995	10	16
POPULATION AND VITAL STATISTICS		
Population		
Population Census, 1999:		
Population, area and density by provinces and districts	11	19-20
Population by sex, and single years of age	12	21
Population by 5 year and above by sex, age-group and highest level of education	13	22
Population size by province and district, (1979 - 1999)	14	23-24
Population of municipalities town councils and other urban centres	15(a)	25-30
Vital Statistics		
Births and Deaths by province, 1990-2002	15(b)	31
MIGRATION AND TOURISM		
Reported arrivals by type of immigrant, 1994 – 2002	16	35
Reported departures by type of emigrant, 1994 – 2002	17	35
Reported arrivals and departures by method of travel, 1994 – 2002	18	35
Reported arrivals and departures by continent of residence and by method of travel, 1999 – 2002	19	36
Total reported arrivals and departures, 1997-2002	20	37
Total length of stay of departing visitors by country of residence and average length of stay, 1998 - 2002	21(a-b)	38-39
Visitor departures by country of residence, 1999-2002	22	40
Hotel rooms and beds available and occupied, 1993-2002	23	41
Hotel beds occupied by E.A. residents and foreign residents, 1996-2002	24	42-43
Hotel rooms and beds available and occupied by area, 2001- 2002	25(a-b)	44-45

	Table No.	Page No.
MIGRATION AND TOURISM		
Hotel guest-nights by country of residence 1999 – 2002	26(a-d)	46-47
Hotel bed occupancy, 1994 – 2002	27	48
Visitors to National Parks and game reserves, 1993 – 2002	28	49
Total number of visitors to National Parks, 2001-2002	29	50
Visitors to museums, snake parks and sites,1995-2002	30	51
Game lodge occupancy, 2000-2002	31	51
NATIONAL ACCOUNTS		
Production Accounts, 2001-2002	32	54
Gross domestic product by industrial origin, at current prices 1998-2002	33(a)	55
Gross domestic product by industrial origin at constant(1982)prices, 1998-2002	33(b)	56
Gross National Product at current prices, 1998-2002	34	57
Total use of Resources at current prices, 1998-2002	35(a)	58
Total use of Resources, at constant (1982) prices, 1998-2002	35(b)	58
Sectoral share to gross domestic product at (1982)prices, 1998-2002	36	59
Gross domestic product:percentage rates of growth, 1998 - 2002	37	60
Capital formation by industrial origin at current prices, 1998-2002	38(a)	61
Capital formation by industrial origin at constant(1982)prices, 1998-2002	38(b)	62
Capital formation by type of assets at current prices,1998-2002	39(a)	63
Capital formation by type of asset at constant (1982) prices 1998-2002	39(b)	64
Capital formation by industrial origin and type of asset, 2001 - 2002	40(a-b)	65 – 66
Contribution of the public sector to capital formation by industrial origin and type of asset, 2001 - 2002	41(a-b)	67 – 68
EXTERNAL TRADE		
Kenya Balance of Payments Overall Estimates, 1999 -2002	42	71
Balance of Payments Total Net Credits, 1991 - 2002	43	72
Visible balance and volume of trade:external trade,1994-2002	44(a)	73
Visible balance and volume of trade:Common Market for Eastern and Southern Africa, 1994-2002	44(b)	73
Visible balance of total trade by geographical area and country, 2000-2002	45	74 - 77
Exports		
Domestic Exports:	46(a)	78– 79
Value of principal commodities, 1994-2002	46(b)	80
Quantity of principal commodities, 1994-2002	46(c)	81
Percentage of total value of principal commodities, 1994-2002	47	82
Value of principal commodities by destination, 2002	48	83 - 85
Value by country of destination, 1994-2002	49	86 - 87
Principal commodities to the Common Market for Eastern and Southern Africa, (COMESA), 2002	50	88
Total Exports: by Broad Economic Category, 1994-2002	51	89 – 90
Re-exports:value of S.I.T.C. sections by country of destination, 1992-2002		

	Table No.	Page No.
Imports		
Value of principal articles, 1995-2002	52(a)	91 - 96
Quantity of principal articles, 1995-2002	52(b)	97 - 101
Value by country of origin, 1995-2002	53	102 - 104
Value of S.I.T.C. sections by principal country of origin, 1997-2002	54	105 - 106
Import duty collected by S.I.T.C. section, 1995-2002	55	107
Principal commodities from the Common Market for Eastern and Southern Africa, (COMESA), 2002	56	108
Total imports: by broad economic category,1995-2002	57	109
Price Indices, 1995-2002	58	110
Quantum indices, 1995-2002	59	111
Domestic export prices, 1996-2002	60	112
Unit prices of selected imports c.i.f., 19972002	61	113
SIZE DISTRIBUTION OF ESTABLISHMENTS		
Number of establishments by employment group, 2002	62(a)	115 - 118
Number of employees by employment group, 2002	62(b)	119 - 122
Businesses opening and closing, 1995-2002	63	123
AGRICULTURE		
Categories of agricultural land	64	125
Agriculture and Livestock: gross marketed production 1997-2002	65(a)	126
Agriculture and Livestock: gross marketed production at constant (1982) prices, 1997-2002	65(b)	127
Gross marketed production from large and small farms, 1997-2002	65(c)	128
Agricultural output less recorded input, 1997-2002	65(d)	128
Principal Crops: production for sale, 1997-2002	66	129
Principal Crops: price to producer, 1997-2002	67	129
Livestock: purchases for slaughter by all licensed Abattoirs, 1997-2002	68	129
Dairy production, 1995-2002	69	130
Livestock and Dairy produce: price to producer for meat (by grades), butterfat and whole milk, 1993-2002	70	131
Agricultural inputs, 1997-2002	71	132
Chemical, medicinal and feed inputs, 1997-2002	72	132
Large Farms	73	133
Irrigation schemes 1997/98 - 2001/2002		
FORESTRY AND FISHING		
Forest land area, 1993-2002	74	135
Forest land plantation area, 1993-2002	75	136
Forest production: other forest produce, 1993-2002	76	136
Quantity and value of fish landed, 1998-2002	77	137
Membership of Co-operatives Societies, 1997-2002	78	138
Number of Societies and Unions by Type, 1997-2002	79	138
Income of societies and Unions by type, 1997-2002	80	139

INDUSTRIAL PRODUCTION	Table No.	Page No.
Manufacturing		
Quantity index of manufacturing production, (1976=100), 1998-2002	81	142
Large Scale Firms and Establishments-Manufacturing and Repairs, 1998-2002	82	143
All firms and establishments,1998-2002, large scale and manufacturing sector	83(a-c)	144
Large scale firms and establishments Manufacturing sector 1998-2002	83(d)	147
Production and Consumption of excisable commodities, 1994-2002	84(a-b)	148
Production of important foodstuffs, 1996-2002	85	149
Production of certain industrial commodities, 1996-2002	86	149
Building		
Survey of industrial production-Building and Construction, 1998-2002	87(a-e)	150
Reported completion of buildings for private ownership in main towns by type of buildings and town, 1996-2002	88	151
Number of units and value of buildings completed in main towns by cost category, 2001	89(a)	152
Number of units and value of buildings completed in main towns, 2002	89(b)	152
Reported completions of buildings for private ownership by town, 2001	90(a)	153
Reported completion of buildings for private ownership by town, 2002	90(b)	153
Analysis of reported new residential buildings, Nairobi, 1997-2002	91	154
Ministry opf Works housing construction, 1996/97-2001/2002	92	154
Reported completions of non-residential buildings for private ownership analysis of cost by town and type of ownership, 1997-2002	93	155
National Housing Corporation:		
Number and value of houses completed by province, 1998-2002	94(a)	157
Number of houses completed by cost bracket, 1994-2002	94(b)	157
Number of houses completed in Nairobi by cost bracket, 1994-2002	94(c)	157
Private building plans approved by Nairobi City Council 1994-2002	95	158
Public buildings plans approved by Nairobi City Council, 1994-2002	96	158
Cement production and consumption, 1996-2002	97	159
Ministry of Public Works and Housing: expenditure on roads, 1995/96-2001/2002	98	159
Cost Index-Residential buildings, 1999-2002	99(a)	160
Cost Index-Non-residential buildings, 1999-2002	99(b)	161
Cost Index-Buildings, 1999-2002	99(c)	162
Cost Index-Civil engineering, 1999-2002	99(d)	163
Cost Index-Overall construction, 1999-2002	99(e)	164
Mining		
Survey of industrial production-mining and quarrying, 1998 - 2002	100(a-c)	166
All firms including those with fifty or more employees, 1998 - 2002	100(d-e)	167
Mineral production: quantity, 1993 - 2002	101(a)	168
Mineral production: value of sales, 1996 - 2002	101(b)	169
Quantity index of mining and quarrying production 1996 - 2002	102	169

FUEL AND POWER	Table No.	Page No.
Electricity		
Installed capacity by area and type of power, 1994-2002	103	170
Generation by type of Power and imports, 1994-2002	104	170
Sales by area, 1994-2002	105	170
Sales by type of user, 1996-2002 and by type of user and area, 2001/02	106	171
Fuel		
Fuel sales, 1994-2002	107	172
Lubricant sales, 1993-2002	108	173
Oil refinery: throughput and output of finished petroleum products, 1994-2002	109	173
FINANCIAL STATISTICS		
Currency and Banking		
Currency in circulation, Central Bank 1997-2002	110	176
Central Bank of Kenya: assets and liabilities 1997-2002	111	177
Central Monetary authorities: Foreign exchange reserves, 1999-2002	112	178
Foreign exchange rates, 1995-2002	113	179
Principal interest rates, 1997-2002	114	180
Commercial Banks: assets 1998-2002	115(a)	180
Commercial Banks: liabilities 1998-2002	115(b)	182
Commercial Banks: liquid assets, 1994-2002	115(c)	183
Commercial Banks: analysis of bills, loans and advances, 1998-2002	115(d)	184
Money and quasi-money supply 1998-2002	116	185

INTRODUCTION

This Abstract has been prepared by the Central Bureau of Statistics of the Ministry of Planning and National Development. The tables have been compiled partly from statistics collected directly by the Bureau and partly from statistics compiled by other Government Departments and other organizations. The source of the statistics is shown under each table.

The Central Bureau of Statistics is also responsible for the preparation of the Economic Survey and leading economic indicators in which emphasis is placed on current statistics for which monthly and quarterly series are available. In addition, reports are published on the various regular and ad hoc statistical surveys undertaken by the Bureau.

Whereas these publications aim at providing statistical coverage of the important fields of economic, financial and social activity in Kenya, the published material may not meet detailed requirements of all users. Additional information, whenever available, will be supplied by the Bureau on request, although in certain circumstances, depending on the amount of work involved in extracting the required particulars, it may be necessary to make a **charge**. All enquiries relating to the Statistical Abstract and the Economic Survey and on statistical matters generally should be addressed to:-

THE DIRECTOR OF STATISTICS
MINISTRY OF PLANNING AND NATIONAL DEVELOPMENT

SYMBOLS AND CONVENTIONS USED

The following symbols have been used through the Abstract.

"_"Means nil or negligible (less than half the final digit shown).

".." Means figures not available.

"/" between consecutive figures means they have been compiled on a different basis and are not strictly comparable. The nature of the difference is usually indicated in a footnote

Rounding of Figures:- In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

CONSTITUTION

THE PARLIAMENT OF THE SOVEREIGN REPUBLIC OF KENYA AS SET OUT IN THE KENYA INDEPENDENCE ORDER IN COUNCIL 1963 AND AS AMENDED BY
THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO. 28 OF 1964.

THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO 6 OF 1992.
THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO. 18 OF 1997 AND
THE CONSTITUTION OF KENYA (AMENDMENT) ACT NO. 3 OF 1999.

Parliament consists of President and the National Assembly:-

(a) The President:

Is the Head of the State and Commander-in-Chief of the Armed Forces of the Republic to be elected in accordance with the provisions of the Constitution. (Act. No. 28 of 1964, however, provided for the first President to be the person who immediately before the 12th December, 1964, held the Office of the Prime Minister under the Constitution). The Constitution of Kenya (Amendment) Act No. 6 of 1992 provided that the candidate for President who is elected as a Member of the National Assembly and who receives a greater number of valid votes cast in the Presidential election than any other candidate for President and who, in addition receives a minimum of twenty-five percent of the valid votes cast in at

least five of the eight provinces shall be declared to be elected as President.

(b) The National Assembly
The Constitution of Kenya (Amendment) No. 4 Act 40 of 1966 provided for the establishment of a National Assembly comprising one House, thus the Senate and House of Representatives were amalgamated to form one Chamber (Unicameral System) and the Constitution of Kenya (Amendment) (No.2) Act No. 45 of 1968 provided for an election of the President and the Nominated Members.

Ex-officio - The Speaker and the Attorney-General 2

Elected Members 208

Nominated Members 12

The Vice-President
Is appointed by the President from among the Ministers who are Elected Members of the National Assembly.

The Cabinet
Consists of the President, the Vice-President and other Ministers.

Ministers .. ..

POPULATION AND VITAL STATISTICS

The 1999 Population and Housing Census

The 1999 Population and Housing Census was the sixth census to be carried out since 1948 and the fourth since independence. It was carried out between the night of 24th/25th and 31st August, 1999. The coverage was on a defacto basis with midnight of 24th/25th August being the reference date.

The main objective of the 1999 census was to ascertain the country's population size by enumerating all persons (whether citizens or not) who were within the borders of Kenya on the mid-night of 24th/25th August, 1999. The specific objectives were to collect data on:-

- Composition and spatial distribution of the population.
- Levels of education attained by the population
- Levels of fertility, mortality and migration rates
- Rate and pattern of urbanization
- Size and utilization of the labour force, and
- Housing conditions and availability of social amenities

Already two basic census reports have been published from the 1999 census data. A more detailed analysis has been carried out to produce eight monographs on each of the census thematic areas, a popular report, census atlas and data sheet. All the census publications will be disseminated to stakeholders for effective utilization.

Comparison of the various censuses should be done with caution since district boundaries as well as those of lower administrative units have changed considerably over the years. This has also affected a number of local authorities.

Area and Density

During the preparatory phase for the 1999 Population and Housing Census, modern and more advanced techniques were used for area estimation. The population densities shown are based on land area, excluding water.

Education

The information published in this edition of the abstract refer to highest level completed. For example a person who was in standard 7 in 1999 was reported to have completed standard 6. Hence the data presented in 1999 census is compatible with the 1969, 1979 and 1989 census data on education.

Vital Statistics

The Civil Registration department in the office of the president has, since 1964, undertaken a phased extension of the areas of compulsory registration, culminating in the extension of total coverage of the whole country on 1st September, 1971.

More-over, the Increase in births and deaths registered in each area is partly a consequence of improved coverage and partly the effect of increased public awarehess on the advantages of registration

NOTES AND DEFINITIONS

Migration statistics

Migration statistics are collected under the Immigration Act 1967. Under this Act immigration controls on movements to/from Uganda and Tanzania were imposed, making it possible to collect statistics of movements to/from Uganda and Tanzania and integrate them with statistics of movements to/from outside East Africa.

Although the coverage of the statistics is fairly complete, they understate total movements because of the fact that not all border crossings have Immigration posts. From 1971, the following definitions have been in use. (They differ somehow from those previously applicable - see "Notes and Definitions" page 24, Statistical Abstract, 1971).

Visitors

Visitors entering or leaving Kenya hold either:-

a) an in-transit pass; or
b) a visitor's pass; or
c) a special pass.

They are classified as holiday, business or in-transit visitors according to the purpose of visit they state on their immigration forms. In-transit passes are issued to persons passing through Kenya and are valid for a period of up to one week. These passes are not required by persons in direct transit, crews of aircraft or ships, or day visitors from cruise ships. Such persons are not recorded in the migration statistics. Visitors' passes are valid up to six months initially and can be extended to a total of twelve months to allow a visitor to pursue temporarily his business or profession; they also cover holiday visits. Special passes are valid up to three months.

Length of Stay

This is shown in days as the elapsed time between the arrival and departure date stamps on visitor's departure forms. Information on average length of visit tends to understate the actual period stayed per visitor to Kenya (because of the incidence of multiple visits by individuals). Totals of days stayed are not affected by this problem.

HOTEL OCCUPANCY STATISTICS

The coverage of the statistics has been improved since their collection was initiated and it is now possible to give figures by a more detailed classification and country of residence of guest. Children under twelve years old not occupying a separate adult bed are not included in the occupancy figures. The definitions used for the new classification in Table 29 and 30 are as follows:

Major Zone	Sub-Zone	Definition
1. NAIROBI	(a) High Class	
	(b) Other	
2. BEACH		Coastal strip up to 1km inland:-
	(a) South	South of Likoni ferry.
	(b) North Mombasa	Nyali Bridge to Mtwapa Bridge.
	(c) Kilifi/Watamu	Mtwapa Bridge to Malindi Point.
	(d) Malindi/Lamu	Malindi Point to Kiunga, including islands.
3. MOMBASA		The Island.
4. COAST HINTERLAND	(a) East	Coast Province (minus Coastal strip and east of Mombasa - Tsavo Road) and Kitui District.
	(b) West	Taita-Taveta District (West of Mombasa – Tsavo Road) and Kwale District (minus Coastal strip and west of Mombasa Tsavo Road).
5. MASAILAND	(a) East	Kajiado District and Machakos District (South of Kitui Road)
	(b) West	Narok District.
6. NYANZA BASIN		Nyanza Province and Kericho District.
7. WESTERN		Western Province, Nandi Uasin ishu, Trans-Nzoia, West Pokot, Elgeyo Marakwet and Baringo Districts.

8. CENTRAL	(a) Nakuru	Nakuru Town and Lake.
	(b) Naivasha	Naivasha Town and Lake.
	(c) Mount Kenya	Embu, Kirinyaga and Laikipia Districts and Meru District (West of the outer Meru -Embu Road).
	(d) Aberdares	Nyeri district (West of Karatina-Naro Moru Road) Nyandarua and Muranga Districts.
	(e) Periphery	Samburu District (south of 1 30'N) and Isiolo District (West of Chanler's Falls).
9. NORTH		North Eastern Province, Marsabit District, Turkana District, Isiolo District (East of Chanler's Falls) and Samburu District (North of 1 30'N).

Notes and Definitions

The definitions adopted in establishing National Accounts are by and large consistent with those laid down in the United Nations System of National Accounts - Series F No. 2 REV 3. At present, Production and Capital Formation are the only two aggregates of national accounts, which are estimated, in the main, directly. Field work has however, started on collection of data required to enable direct estimates of Income and outlay and Consumption Expenditure accounts, also to be undertaken.

For the years 1972 onwards the industrial classification of production and Capital Formation accounts is based on the 4 digit United Nations International Standard industrial classification, slightly modified to suit Kenya's need. It has not been possible, however, to carry back this classification beyond 1972. Some changes in method have also been made as well as change of the base year from 1964 to 1972 and 1972 to 1976 and from 1976 to 1982 for the deflation of Production and Capital Formation accounts. Further the old 3 digit classification is not conformable with the new 4 digit classification. These comments apply to all tables in this chapter except Tables 42 and 43. The CBS has adopted the conceptual guidelines of the fifth edition of the Balance of Payments manual. Data has been revised as far backward as 1996.

The figures on Gross Domestic Product measure the value of output of goods and services each year by residents of Kenya. The figures are gross because no deduction has been made to allow for consumption of fixed capital assets in the production of the output. The following differences between the definitions as specified in the United Nations System of National Accounts and those used in calculations as published here should be noted.

i) No imputation is made in the production accounts for consumption of Government fixed capital.

ii) Private enterprises producing non-profit services for households are not identified distinctly as a sector.

Surveys of production in Agriculture, Industry, Distribution and Services, Transport, Storage and Communication sectors are the main source of information on the monetary component of production in these sectors. The results obtained from the surveys and their coverage are indicated in the relevant sections of this Abstract. By and large there is total coverage of larger establishments, defined as employing more than 50 people, and a sample coverage of smaller firms employing between 20 to 49 people. For the industrial production sectors, this information is supplemented by periodic censuses of production. For those segments of particular sectors on which information is not collected regularly, estimates of production for the inter-survey/census years are made by using information obtained from the censuses/surveys as benchmarks. Information on some variables like labour costs is collected annually through specific surveys like the annual Enumeration of Employees.

Information on product estimates for the private element of other sectors is obtained from the following three sources:

i) limited field studies, e.g. of sectors such as Forestry and Ownership of Dwellings,
ii) direct supply of data from the enterprises that operate in the sectors such as Electricity, Water and Banking.

Information required to make production estimates of the public sector is obtained directly form the accounting records, both published and unpublished, of units in the public sector. In the case of Central Government, published accounts undergo a considerable amount of re-analysis before being used in the calculations.

Production in the Traditional Sector is estimated by interpolating annual estimates of population connected with traditional production to estimates of aggregates such as consumption of firewood, number of dwelling etc. in the base years for which information has been directly obtained.

The figures on Capital Formation measure expenditures on fixed assets, which represent a gross addition to the stock of capital in the economy. Thus purchases of land and second hand assets are excluded since expenditure on these represents transfer of assets within the economy rather than additions to total capital. No deduction is made for capital used by depreciation, obsolescence or unforeseen damage.

Estimates of Capital Formation of the private sector are undertaken by and large on a commodity flow basis. Statistics from End-Use Analysis of Imports and on Buildings completed are the two main sources of information. Information from these two sources is supplemented by data collected in agricultural and industrial surveys. Data on Capital Formation estimates of the public sector - as in the case of production accounts - are obtained directly from the accounting records of the public sector.

Estimates of Capital Formation in construction are undertaken on a "work done" basis. This is consistent with the recommendations laid down in the United Nations Systems of National Accounts.

Deflation of Production and Capital Formation accounts to constant (1982) prices is undertaken using a series of indices. Use is made of both quantity and price indices. A large majority of these are indices of output applied to estimates of value added at current prices. However, indices of labour costs are also used to deflate the product estimates of some small sectors. In the case of agriculture "double deflation" method is used i.e. both inputs as well as outputs are deflated.

** Excludes Land Improvement and breeding of Stock and Dairy Cattle

Notes and Definitions

1. **General** - All trade between Kenya and other countries is defined as "external". This trade is classified under the headings of Direct Imports, Domestic Exports, and Re-exports.

2. **S.I.T.C** - The United Nations' Standard International Trade classification revised and modified to cater for Kenya's needs has been used since January 1964. In June 1989 the S.I.T.C. was revised again and all classifications since June 16th 1989 have been based on those revisions (known as S.I.T.C. Rev. 3). In general the classifications are comparable, but cases where comparison is difficult are indicated in the tables.

3. **Direct Imports** - These are defined as goods directly imported into Kenya for warehousing. Direct Imports include Government imports and goods subsequently re-exported.

4. **Imports for Home Use**: Imports for home use mean goods:-

   i. which on importation are cleared through Customs, plus
   ii. released by Customs from bonded warehouses and
   iii. entered into manufacturing plants, less
   iv. nationalized re-exports, that is, re-export of goods originally cleared for home used but subsequently re-exported.

In some cases transfers of goods imported in a previous year, or goods transferred at a higher value than when originally imported, or transfers of goods initially imported by parcel post, may distort the relationship between quantity and value, or a value out of proportion to the quantity.

5. **Valuation of Imports** - Direct Imports are valued at c.i.f. port or place of entry into Kenya; customs duty and internal handling charges are excluded.

6. **Country of Origin** - The country in which the goods were grown or produced; in the case of manufactured goods, the country in which the manufacturing process was substantially completed. When the country of origin cannot be determined the goods are shown as originating in the country from which they were consigned. From 1976 imports are classified as originating from the country of last consignment.

7. **Domestic Exports** - These are defined as Kenya produce and manufactures exported to other countries or sold as aircrafts, or ships' stores. From 1976 exports and re-exports are classified as destined to the country of consignment except where such goods are consigned via another country.

8. **Re-exports** - These consist of imported goods re-exported in the same form to other countries or as aircrafts' or ships' stores.

9. **Valuation of Domestic Exports and Re-exports** - These are valued of f.o.b. ship or aircraft; the value includes any Kenya cess levy or export tax levied on the goods.

10. **Country of Destination** - The country to which the goods are finally sent, as far as is known at the time of export.

11. COMESA - The previous Preferential Trade Area (PTA) member countries, Angola, Burundi, Comoros, Djibouti, Ethiopia, Kenya, Lesotho, Mauritius, Mozambique, Rwanda, Swaziland, Tanzania, Uganda, Zambia, and Zimbabwe was replaced by the Common Market for Eastern and Southern Africa (COMESA) in December, 1994

12. With the recent creation of the **East African Cooperation** that became **East African Community**, goods can easily cross the borders without Customs documentation hence not accounted in trade. Nevertheless the value of the goods traded in such manner is of a small proportion that cannot distort the recorded trade.

13. Specie and Currency Notes - This item is included at its intrinsic value as base metal and paper respectively.

14. Gold - Import and export of gold is included in the external trade statistics.

15. Parcel Post Imports - Up to 1970 no imports by parcel post were analysed by article. From 1971 onwards, commercial imports by parcel post have been assigned to their S.I.T.C. code.

16. **Trade Indices** - A Paascherized-Laspeyre formula has been used and 1982 taken as the base year. Indices have been computed for Direct Imports and Total Exports.

17. Exclusions - Travelers' samples, passengers' baggage, motor vehicles moved on a triptyque or carnet de passage de Duane, naval and military stores, duty free goods with a value of less than Sh.1,000 moved by air freight, goods in transit to neighbouring countries outside Kenya, diplomatic goods imported and exports by parcel post are excluded from the trade statistics.

18. Petroleum Products - All values and quantities given for petroleum products exclude any by products, such as lubricating oils and greases.

19. **Further Information** - More detailed definitions and notes on trade are contained in the Annual Trade Report of Kenya, published by the Customs and Excise Department.

NUMBER AND SIZE OF ESTABLISHMETS

Notes and Definitions

Statistics are shown for establishments rather than firms, which may be made up of more than one establishment. Establishments are defined to mean specific locations in which a clearly identified type of economic activity is being undertaken. In some instances particular operations being undertaken under one roof are further identified into one or more separate establishments provided any of these operations have 50 or more people engaged in them, and provided according to International Standard Industrial Classification each one of these can be distinctly so classified.

The economic classification used in this chapter from 1972 is a slightly modified version of the United Nations 4-digit International Standard Industrial Classification.

Establishments include limited liability companies as well as other forms of business organizations. Public bodies of an "enterprise" nature engaged in "business" activity are also included. The agricultural establishments shown are only those located in the former scheduled areas and exclude the very large number of smallholdings outside these areas. Other very small non-agricultural rural establishments are also excluded. The coverage is in fact limited to the "modern" sector, defined to include all establishments in urban areas, large scale farms and other "modern" enterprises located in rural areas plus that part of the public sector which is engaged in activities of an "enterprise" nature.

The source of these data is the *Annual Enumeration of employed and self-employed persons*, which covers the "modern" sector. An attempt is made to include all active "businesses".

Statistics of local companies registered include businesses already in existence, which are converted into companies of limited liability. New nominal capital created in a year includes capital increases by existing limited liability companies through bonus issues, etc.

Statistics of foreign companies consist of details of those companies which are registered outside Kenya but which maintain a place of business in Kenya. The nominal capital of foreign companies is not shown since the total registered capital of these companies gives no indication of the amount they have invested in Kenya.

Bankruptcy statistics do not include companies winding up under the Official Receiver.

Notes and Definitions

The terms "small farms" and "large farms" are used in many tables in this Section. "Large farms" are those which used to be included in the former "Scheduled Areas" less those which have been transferred for sub-division into land settlement schemes. "Small farms" include all other areas of arable farming covered in the surveys from which data set out in this Section are derived. Surveys covering the small farms areas started on a limited basis and have been gradually expanded so that they now cover all significant areas of arable farming. In a few districts, e.g. Uasin Gishu, farming is predominantly carried out on large scale holdings. However, they have small areas under small farm settlement schemes. In such cases of predominantly large scale farming the small farms have been brought into the basic agriculture statistics surveys.

The small farms are between 0.2 and 12 hectares though there are some outside this range. In large scale farming districts namely, Nakuru, Uasin-Gishu, Trans-Nzoia, Kericho, Nandi and Laikipia, the average size of farms is around 700 hectares. Over all, 25 per cent of the farms range between 20 and 50 hectares.

The production and price figures shown refer to calendar years. For this reason they would in some instances differ from price and production figures published by marketing organizations in so far as these bodies publish data on other than calendar year basis. There may be differences for other reasons also, such as the fact that a product and its price might be shown at a different stage of processing.

Statistics on value of marketed production are derived from quantities and average prices realised by farmers for commodities delivered to various marketing agents. No attempts are made to estimate value of production not directly delivered to the boards.

Data on small farms have been collected by means of sample surveys involving high sampling errors at district and provincial level, as well as possible non-sampling errors, and the estimates should therefore be treated with caution especially those relating to districts which are predominantly pastoral or large farm areas.

*The three categories are defined as follows:

High potential annual rainfall of 857.5mm or more (over 980mm in Coast Province).

Medium potential: annual rainfall of 735mm-857.5mm.(735mm-980mm in Coast Province and 612.5mm-857.5mm in Eastern Province)

Low potential:Annual rainfall of 612.5mm or less.

Notes and Definitions

The table on timber production covers timber and other forests controlled by the Forest Department. Timber cut on private farms and estates is excluded, and also a very small amount of timber issued free by the Forest Department. The amounts excluded in this way form only a small proportion of total production.

FORESTS**

Notes and Definitions

1. **Coverage:-** The Census of industrial Production, 1967 covered all establishments with five or more employees, engaged in manufacturing, mining and quarrying, and building and construction sectors.

Census of Industrial Production, 1972 was more extensive in coverage than that undertaken in 1967 and covered establishments with twenty or more persons engaged in the mining and quarrying, manufacturing, building and construction sectors. For smaller establishments which engaged between five and twenty people, a 25 per cent sample was taken and a 20 per cent sample for establishments engaging less than five people.

The annual surveys of industrial production, undertaken in between the more complete censuses and are therefore limited in cope, were conducted for years 1965-1966; 1968-1971; 1973-1976, covering only large scale establishments, defined as those with fifty or more employees. However, since 1970, 25 per cent sample of firms engaging between 20 and 49 persons has been included in the surveys.

The last census was for 1977 and covered all establishments employing 20 or more persons, a 50 per cent sample of those employing between 5 and 19 persons and 10 per cent sample of establishments in the 1-4 group.

The unit of enumeration of large-scale enterprises in the Surveys is the firm rather than the establishment. However, firms are offered the option of responding by establishment. In so far as the same firms are split by economic activity, the responding unit is often of an establishment nature **(see notes on Page 113).**

2. **None-Response:** - Estimates have been made for non-response.

3. **Definitions:** - The definitions used for the Surveys of Industrial production are as follows.

(i) **Labour Costs** - Labour Costs include salaries and wages paid in cash plus cost of other labour benefits.

(ii) **Input** - Input includes industrial costs plus cost of goods for resale and overhead costs like rents, rates, water, stationery, advertising expenses, transport, head office costs, insurance, audit fees, legal expenses etc., less change in stocks of raw materials, components, supplies, spare parts etc.

(iii) **Output** - Output is the value of sales or work done, plus resales, plus change in stocks of semi-finished and finished goods, rents received on non-residential buildings, self-produced capital assets, indirect taxes such as sales and excise.

(iv) **Gross Product.** - Gross Product is the aggregate difference between output and input:- It includes labour costs, interest payments, depreciation charges, and net profit before tax.

4. Changes have occurred in the figures over the years covered due to re-classifications, wider coverage and further refinements of the data.

5. In 1972, Kenya adopted the 4-digit **United Nations International Standard Industrial Classification (ISIC)** of all economic activities. The main change that affected the manufacturing sector was the exclusion of repair of motor vehicles, which was hitherto included in the manufacturing sector in the 3-digit ISIC.

BUILDING AND CONSTRUCTION

Notes and Definitions

Statistics of Private buildings are compiled from returns of private buildings and extensions completed in the municipalities. The term "extention" includes all major alterations and additions to buildings.

Buildings which are partially residential and partially non-residential have been classified according to their main usage. The classification is based on the floor area. This is defined as plinth area together with floor area of any external ancillaries such as garages, servants' quarters, store rooms, lavatories, etc.

A block of flats maisionnettes is counted as a single building.

MINING

NOTES AND DEFINATIONS:

from returns made by mining concerns. For salt and lime, only commercial output is covered. consequently considerable quantities of these items which are mined and used on farms, e.t.c. are not recorded. The value given for gold, lime and diamond are the amounts realised by the producers. The production of limestone and gypsum excludes the part used in the production of local cement.

Notes and Definitions

Currency - Notes of the Central Bank of Kenya were first issued on 14th September 1966, and coins on 10th April 1967. The volume of Kenya currency in circulation is shown in Table 110.

The unit of currency in Kenya is the Kenya Shilling, which is divided into one hundred cents. The Kenya shilling was tied to the SDR on 27th October, 1975. The SDR is a weighted average of exchange rates of the five leading world currencies, namely, the USA dollar, the Pound Sterling the Deutsche mark, the Japanese Yen and the French Franc. Notes of the Central Bank of Kenya are circulated in the following denominations: Ksh.5/-, 10/-, 20/-, 50/-, 100/- 200/- , 500/- and 1,000/- and coins in denominations of 5 cents, 10 cents, 50 cents, 1/-, 5/-,10 and 20/- (the first two coins being nickelbrass, and the other cupro-nickel).

As from 14th September 1967, East African Currency Board notes ceased to be legal tender in Kenya. The dates for the withdrawal of the legal tender status from the E. A. Currency Board "coin" was 10th April 1969, and the Board wound up at the end of 1969. Data on the Boards assets and currency in circulation is shown in 1974 and earlier issues of the Abstract.

Commercial Banking - The main categories of deposits are defined as follows:-
Demand: subject to transfer by cashing or cheques. These deposits carry no rates of interest.

Time: usually not subject to transfer by cheque and lodged for a definite period subject to notice of withdrawal; interest paid to depositors.

Saving: lodged for no fixed period- certain conditions are applicable to depositors who wish to avail of cheque facilities; interest paid to depositors.

The Agricultural Finance Corporation - The former Land and Agricultural Bank of Kenya and the Agricultural Finance Corporation were legally amalgamated on 21st March, 1969 to form the **Agricultural Finance Corporation.** The A.F.C. assumed the functions that were previously performed by the two bodies. Assets and liabilities of the Bank are shown in the 1974 and earlier issues of the Abstract.

Insurance-Statistics on insurance have been obtained through an annual survey of insurance companies. These surveys for the years up to 1967, were conducted by East African Statistical Department, for the years 1968, and 1970 by Central Bank of Kenya and for the years 1971 - 1991 by Central Bureau of Statistics. From 1992 onwards **Commissioner of Insurance** has assumed responsibility for this survey.

Non-Bank Financial Intermediaries - statistics on Non-Bank Financial Intermediaries have been obtained through a quarterly survey of these institutions by the Central Bank of Kenya since 1968. The Non-Bank Financial Institutions included in the survey are:

1. Bank of India Finance Ltd.
2. Consolidated Bank.
3. Devna Finance Ltd.
4. Diamond Trust of Kenya Ltd.
5. Fortune Finance Ltd.
6. Housing Finance of Kenya Ltd.
7. Industrial Development Bank Ltd.
8. National Industrial Credit Ltd.
9. Prime Capital and Credit Ltd.
10. Savings and Loans Kenya Ltd.

Notes and Definitions

1 Kenya Railways Corporation

Statistics on the operation of the Railways Corporation relating to: Revenue; Expenditure; Traffic carried; Kilometres of lines open for Traffic; and Stocks of transport equipment are derived from the annual report of the Corporation. For accounting purposes capital expenditure is defined as including purchases of land, expenses of loan issue and interest paid out of capital. This definition of capital expenditure differs slightly from the "economists" definition used elsewhere in this Abstract, e.g. in the tables on Gross Capital Formation included in the National Accounts Section.

3 Kenya Ports Authority

As in the case of the Railways, statistics on Kenya Ports Authority relating to revenue and expenditure are derived from the annual report of the Authority. Consequently, as noted above the definition expenditure differs from the "economists" definition used elsewhere in this Abstract.

3 Shipping

(a) Statistics relate to both steam and sailing ships engaged in international or coastwise trade, arriving either with cargo or in ballast. A tug with lighters in two is counted as a single steamship with a tonnage equal to the combined tonnage of the tug plus the lighters. Naval craft are not included.

(b) Returns are made by the following Kenya Ports - each call at a port being counted separately:- Mombasa, Malindi, Lamu, Kilifi and Shimoni.

5 Air Traffic

a) All scheduled services are operated from Nairobi Jomo Kenyatta, Mombasa Moi and Eldoret International Airports, while Wilson Airport operates non-scheduled commercial services only.

b) Air Force/Military, Police, training, testing and private aircraft movements are not recorded.

c) Transit passengers are included once, in total number of passengers handled as from 1970. Prior to 1970 they were included twice.

d) Passengers in transit are those expected to continue their journey either in the same aircraft or in another after a stopover.

f) Passengers landing or embarking are mainly those completing or commencing their journey, but the statistics do include a small number changing aircraft or staying over for a few days.

f) Freight handled is weight of cargo and mail unloaded from or loaded into aircrafts. It does not include aircraft fuel or stores or goods remaining in the aircrafts.

g) Movements - Each touchdown and take-off is counted as a separate movement.

h) 1 kilogram (kg.) = 2.205 lb., 1,000 kilograms = 2,205 lb. = 1 Metric Tonne.

i) For the purpose of direction of air traffic, countries of origin and destination of the aircraft have been grouped into regions, in order to avoid disclosing the operations of individual companies. The countries included in each region are as follows:-

(1) United Kingdom - includes Eire.

(2) Continental Europe - Belgium, Bulgaria, Czechoslovakia, Denmark, Finland, France, Germany, Greece, Hungary, Italy, Luxembourg, Netherlands, Norway, Poland, Rumania Spain, Sweden, Switzerland, USSR and Yugoslavia.

(3) Middle East - Cyprus, Egypt, Iran, Israel, Lebanon, Syria, Turkey.

(4) Arabian Peninsula, Pakistan and India - Aden, Bahrain, Sri Lanka, India, Kuwait, Oman, Pakistan, Saudi Arabia, and Yemen.

(5) Africa North of the Equator (excluding Egypt) - Algeria, Cameroon, Central African Republic, Chad, Dahomey, Ethiopia, Gabon, Ghana, Ivory Coast, Libya, Mali, Mauritania, Morocco, Nigeria, Senegal, Sierra Leone, Somalia, Sudan, Togo, Tunisia, and Upper Volta.

(6) Africa South of the Equator and Adjoining Islands - Angola, Congo Brazzaville, Malagasy (Madagascar), Mauritius, Malawi, Mozambique, Reunion, Republic of South Africa, Rhodesia, Congo D.R.C (Zaire), and Zambia.

6 Roads:-

The Roads Department completed the road reclassification in 1970. All roads in Kenya now fall under one of the following categories: -

i) ***A - International Trunk Roads*** - Link centres of international importance, and crossing international boundaries or terminating at international ports.

ii) ***B - National Trunk Roads*** - Link nationally important centres.

iii) ***C - Primary Roads*** - Link locally important centres to each other and to higher-class roads.

iv) ***D - Secondary Roads*** - Link locally important centres to each other and to higher class roads.

v) ***E - Minor Roads*** - Any link to a minor centre.

vi) ***F-Special Purpose Roads*** - Include Parks, township, agriculture, fish and strategic roads.

Coverage

The statistics in respect of primary and secondary school enrolments refer to enrolment as at September of each year. The statistics cover all schools, i.e. both public and some private schools.

Data on Technical Training Institutes excludes enrolments at Mombasa, Eldoret, and Kenya polytechnics and refer only to the former technical secondary schools that were converted to Technical Training Institutes and Institutions of Technology. Enrolment at the Kenya Technical Teachers College is included together with other Teachers' Training colleges.

Data on higher education consists of enrolments at the Universities of Nairobi, Moi, Kenyatta, Egerton, Jomo Kenyatta University of Agriculture and Technology (JKUAT) and Private Accredited Universities.

Definitions

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "private" schools.

Teachers are categorized into professionally and non-professionally qualified groups. A professionally qualified teacher must either have attended a teacher training college and have been awarded a teaching certificate or be a graduate with a degree of Bachelor of Education or a degree in any other discipline and a teaching diploma.

Any person registered as an examination candidate who immediately before registration was not enrolled as a pupil/student in an educational institution is categorized as a private candidate.

PUBLIC HEALTH

Notes and Definitions

The Statistics in Table 170 must be read with caution. Since there is a single fee for registration, and no annual licence, respective registers may include those who do not practice or who have left the country. The Statistics of diseases reported may imply that relatively little progress is being made. In fact,the improvement in statistical coverage is obscuring the real progress which is taking place.

Notes and Definitions

The form in which Government accounts are kept and published is determined by the administrative structure, and by the requirements of financial control. Tables *174 (a)-175* and *172-184* of this section accounts, have been rearranged into a format which makes analysis of revenue and expenditure more convenient. In carrying out this reclassification, the recommendations of the United Nations for the analysis of Government accounts have been followed.

Table 174 (a) is a summary of the Appropriation Accounts while Table 174 (b) summarizes the results of the reclassification of revenue and expenditure. The totals of revenue and expenditure as shown in the following tables differ from the totals shown in the Government Appropriation Accounts and in the published estimates of expenditure and revenue. The principle reasons for these differences are:-

(i) The division of the budget into Recurrent and Development Accounts causes transfer of various expenditure items from one account to the other. The figures included in these tables eliminate any resultant double counting in the Appropriation Accounts;

(ii) Both revenue and expenditure are gross of Appropriation-in-Aid (the revenue earned by Departments and Ministries by the provision of goods and services appropriated to meet their own expenditure) instead of net as voted in the Budget;

(iii) Expenditure under Consolidated Fund Services has been included with the Central Government figures, to give a complete picture of the Budget.

The figures for the year 1994/95 - 1997/98 reconcile total revenue and expenditure as shown by the reclassification with the accounting figures in the Appropriation Accounts. From them it is possible to see, firstly, revenue and expenditure (reclassified) net of Appropriations-in-Aid and, secondly, the amount of double-counting arising from inter-account and other internal transfers.

LABOUR

Notes, Definitions and Coverage

Most of the tables in this section are derived from the **Annual Enumeration of Employees and Self-employed Persons.** This enumeration takes place at the end of June. The annual wage bill is estimated from monthly data - the reported earnings for the month of June being multiplied by twelve.

Wage employment figures as shown in this section may not compare with those shown elsewhere in the Abstract, e.g. in the Industrial Production Section. This is due to differences in coverage, timing, etc. between the annual enumeration of employees and the other enquiries in which information on employment is also collected.

Public services include **Central Government, Parastatal Bodies, Local Government, E.A. Development Bank and Kenya National Examinations Council.**

All private establishments in urban areas, large-scale farmers and other large-scale enterprises located in the rural areas as well as establishments of the public sector engaged in industrial, commercial, agricultural and other activities are asked to state their main activity, and this is the basis of industrial classification.

Wage employment figures include casual employees, part-time workers, directors and partners serving on a regular basic salary contract. Self-employed persons and family workers who do not receive regular wages or salaries are excluded. Employment in the **informal sector** of the economy is not included in the Abstract. Also excluded are employment figures for rural small-scale agriculture and pastoralists activities.

Earnings or wages cover **all cash payments**, including *basic salary, cost of living allowances, profit bonus, together with the value of rations and free board*, and an estimate of the employer's contribution towards housing. Earnings as shown in this section are lower than the estimate of factor income going to employees (Table 32) because they exclude *pensions, employers' contributions to the National Social Security Fund or private provident funds and personal emoluments for the armed forces.* Earnings in informal sector, rural small scale agriculture and pastoralists activities are excluded.

The economic classification used in this chapter from 1976 is a slightly modified version of the United Nations' *4-digit international Standard industrial Classification.*

RETAIL PRICES AND CONSUMER EXPENDITURE

Notes and Definitions

The weight used for the new Kenya Consumer Price Indices as published in this Abstract are derived from the Urban Household Budget Survey undertaken in 1993/94.

The base period for the new series is October 1997=100 and the series has been computed from October 1997 onwards.

Lower income index of consumer prices is designed to measure changes in retail prices of goods and services consumed by household in the lower income groups. In the previous years the index referred to households earning upto Kshs 2,000 per month. It is now redefined to be one with income of up to Kshs 10,000 per month.
In the new series middle and upper income groups in Nairobi have been combined. These refers to households with income more than Kshs 10,000 per month.
Rest of Urban Town refers to those urban towns outside Nairobi and household earning below Kshs 10,000 per month.
