PREFACE

It is my distinct honor and privilege to introduce the Makueni County Statistical Abstract for the year 2023. This publication stands as a testament to the commitment of Makueni County to harnessing the power of data toward actionable information for informed policy formulation, resource allocation and service delivery. This comprehensive document encapsulates a wealth of data and insights collectively portraying the current state of our county. It is a product of effective collaboration between Makueni County and the Kenya National Bureau of Statistics. The dedication demonstrated by both parties in ensuring the quality and reliability of the data presented in this abstract is invaluable and commendable.

The Makueni CSA 2023 is launched after the celebration of Africa Statistics Day on 18th November 2023 whose theme was "Modernizing data ecosystems to accelerate the implementation of the African Continental Free Trade Area: The role of official statistics and Big Data in the economic transformation and sustainable development of Africa,". In all our development, the role of official statistics and Big data is emerging as a linchpin for steering our Wards, Counties, Countries and Continents towards unprecedented economic growth and resilience.

It is my desire that, as we navigate the challenges and opportunities that face our county, this Statistical Abstract will undoubtedly serve as a compass, guiding us with data-driven insights that will form the bedrock of informed decision-making. Our commitment to bolstering statistics and data is rooted in the recognition that informed decisions lead to positive development outcomes for Makueni residents. The data contained within these pages should therefore, spark dialogue within and outside the county, fosters understanding, and inspires responsive action towards the continued development and prosperity of our County.

Lastly, we will continue to actively forge a strong partnership with development partners and stakeholders, including national government agencies, research institutions, and community representatives to foster the collection, analysis, and dissemination of data that accurately reflects the realities of our county. I am cognizant of the fact that technology is a powerful enabler in the realm of data management. Embracing modern data systems and analytics tools will be a cornerstone of our strategy to not only streamline processes but also to empower our decision-makers with real-time insights. I am confident that, with a collective effort, we will transform our county into a model of data-driven governance, where decisions are not just made, but made with precision, compassion, and a profound understanding of the needs and aspirations of our people.

H.E Mutula Kilonzo Junior, CBS
Governor, Makueni County

FOREWORD

During the just concluded first biennial devolution conference in Kenya, the country marked the ten years of devolution and explored locally and internationally recognized methodologies for strengthening systems to enhance transformational service delivery in Counties. The official statistics plays an important role of being a unique source of impartial and trustworthy information to address this course. The official statistics which are compiled from data generated by departments and agencies of both national and county governments are also meant to honour citizens' entitlement to public information.

A County Statistical Abstract (CSA) is a publication that provides compilation of available demographic, social, economic, governance and environment statistics for a particular county for a series of years. The statistics contained in the publication are mainly derived from the administrative data from departments and agencies based in the counties and usually for a period of 5 consecutive years. The publication also provides statistics from the data from the surveys and censuses conducted during reference period.

The 2023 Makueni CSA provides the statistics for the period 2018 to 2022 and its production went through all the recommended stages of producing official statistics. The statistics generated were validated by the departments and agencies in Makueni County both from the National and the County Government and reviewed by the technical team from KNBS and County Government of Makueni. The publication is categorized into an introductory chapter and five other chapters based on the classification of statistical activities undertaken by national and international statistical organizations. This classification follows the statistical subject-matter domains with five domains of: Demographic and Social Statistics; Economic Statistics; Environment Statistics; Governance Statistics; and Cross-cutting Statistics.

This publication supports the aspirations of the African Statistics Day (ASD), celebrated annually on 18th November and focuses on raising awareness amongst decision-makers, development partners, data producers and users, academia, researchers, and the public on the importance of statistics on a specific theme. Specifically, the 2023 ASD theme "Modernizing data ecosystems to accelerate the implementation of the African Continental Free Trade Area (AfCFTA): the role of official statistics and big data in the economic transformation and sustainable development of Africa." is aligned to the African Union theme of the Year 2023, "Year of AfCFTA: Acceleration of the African Continental Free Trade Area Implementation".

KNBS appreciates the collaborative efforts between the two levels of government that has resulted in the production of this publication which contains a comprehensive set of indicators that are useful for research, planning and policy formulation for Makueni County.

We encourage feedback on the contents and quality of this publication for use in improvements of future publications.

Macdonald G. Obudho, MBS
Director General
Kenya National Bureau of Statistics

ACKNOWLEDGEMENT

The successful production of Makueni County Statistical Abstract (CSA), 2023 has been made possible through joint efforts of County Government, National Government and Agencies at the county level and Kenya National Bureau of Statistics (KNBS). I would like to express my sincere gratitude to the contributors, collaborators, and stakeholders who played a pivotal role in the compilation and publication of this Abstract.

Specifically, I would like to acknowledge the guidance and support received from H.E Mutula Kilonzo Junior, the Governor of Makueni County and H.E Lucy Mulili whose leadership have been invaluable throughout the entire process. I also want to thank the County Executive Committee Members, Chief Officers, Directors and staff who participated in the process of production of this abstract.

My sincere gratitude goes to Kenya National Bureau of Statistics for supporting collation of data from the National government and providing technical support which has culminated in the preparation of this 2023 Annual Publication. I appreciate the contribution of departmental heads from both the National government and county government for provided timely data and actively participated in its validation.

Special thanks to the CSA 2023 technical team led by Boniface Mutua (Chief Officer-Planning, Budget, Revenue and M&E) and Benjamin Avusevwa (Director- Statistical Coordination and Methods, KNBS). The other team members comprised of John Bore, Stanlus Matheka, Hastings Mwangangi, Charity Mumo, Mathias Mbweli, Cynthia Musangi, Antony Makau, Benson Kaboro, Ephantus Kuria, Jackline Chepkorir, Cecilia Punyua and Veronica Ndeto. I acknowledge the contribution of dedicated statistics interns; Cornelius Kivuva, Tracy Kilonzo, Boniface Mwongela, Laban Mutua, Peter Kalua, Vincent Ngeti, Daniel Musangi, Joseph Wambua, Philip Kilindi, Franklin Mambo, Margret Muteti, Joshua Ndeti, Eric Jeremiah, and Kennedy Mulinge, who worked tirelessly to collect, analyze, and present the data contained in this Statistical Abstract. Their effort, expertise and diligence have been instrumental in producing this document that will serve as a valuable resource for policymakers, researchers, and the general public.

Finally, the CSA 2023 serves as a testament to the collective strength of our government in its pursuit of evidence-based decision-making. Going forward, the department commitment to harness the power of technology in data collection, data processing, analysis, storage and archiving to strengthen the quality of the data. The integration of modern technologies will not only facilitate the seamless collection and analysis of data but has also transformed how we interpret and utilize information.

Damaris Kavoi,
County Executive Committee Member,
Finance, Planning, Budget and Revenue.

INTRODUCTION

Overview of Makueni County

Makueni county is one of the 47 counties in Kenya. It is situated in the South Eastern part of the country and borders the following counties: Machakos to the North, Kitui to the East, Taita Taveta to the South and Kajiado to the West. The county lies between Latitude 1º 35´ and 3° 00´ South and Longitude 37º10´ and 38º30´ East with an area of 8,176.7 Km^2.

Makueni County is predominantly inhabited by the Akamba community who form approximately 97% of the total number of the inhabitants. There is a substantive percentage of people from other communities especially in the major towns. The County has an average population density of 121 persons / KM^2 with Kilungu Sub – County recording the highest population of 395 persons / KM^2 and Kibwezi Sub County recording the lowest of 63persons/ KM^2. The county headquarters are situated at Wote town which hosts both the County Government of Makueni head offices and the National Government County Offices. Wote town is located 130 Km from Nairobi.

The main economic activities in the County are:- subsistence agriculture, bee keeping, small-scale trade, dairy farming and limited coffee growing, eco-tourism and commercial businesses. Agriculture is the main economic activity contributing 27 percent of the Ksh. 120 billion county economy in 2022. Farmers engage in the cultivation of various crops such as maize, beans, millet, sorghum, fruits (mangoes, oranges, bananas), and vegetables. Livestock rearing, including cattle, goats, and poultry, is also widely practiced. Agro- processing initiatives that add value to agricultural produce create employment opportunities and significantly contribute to the local economy.

Tsavo National Park which lies in the southern part of the County, in Kibwezi East is considered as one of the world's biodiversity strongholds. It is home to diverse wildlife species which include the famous big five consisting of lion, black rhino, elephant, buffalo and leopard. Beyond being a sanctuary for these majestic creatures, the park embraces a wide spectrum of bird species, including the black kite, crowned crane, lovebirds, and the sacred Ibis, among others. This diversity positions Tsavo National Park as a significant tourism destination, attracting both local and international visitors eager to witness its unparalleled natural wonders.

[1] The Data has been compiled according to the 2023 Audit

2.3. Sectoral Statistics

2.3.1. Agriculture, Forestry and Fisheries

The sub domain covers statistics related to agriculture, forestry and fishery. It includes agricultural monetary statistics (agricultural economic accounts), agricultural structures (farm structure), trade in agricultural products, crop and animal production, agricultural commodities agro-industry statistics (including food production and safety), organic farming and organic food, products source and use tables, forest and forest product statistics, trade in forest products and fisheries.

Table 2.3.1.1: Agro-Ecological Zones by Sub-County and Crop Enterprise, 2022

Zone	Sub County	Crop Enterprise
LM4-5,LH 2 ,UM 3	Makueni	Sorghum, green grams, cowpeas, pigeon peas, dolichos, mangoes,citrus,cotton, castor, Avocado, coffee
LH2, UM3, UM4,LM3,LM4, LM5	Mbooni	Potato, coffee, sunflower, maize, cotton, millet, french beans, common beans,yellow passion fruit, cabbages ,tomatoes, avocado,citrus,madamamia, cotton, castor
LH2-UM2, UM5-L6, UM3-L6	Kaiti	Avocado, mangoes, tomatoes, cabbages, french beans, common beans, yellow passion fruit,citrus,coffee, macadamia
LH2-UM2	Kilome	Maize,beans,sweet potato,kales,cabbages,avocado,apples,coffee, sorghum, cow peas, Mangos, cassava, citrus, pawpaw, green grams,coffee,macadamia, castor
LM4, LM5, LM6	Kibwezi West	Maize, beans, mango, pigeon peas, vegetables, green grams, vegetables, cow-peas, citrus,cotton, castor
LM4, LM5, LM6	Kibwezi East	Maize, beans, mangoes, tomatoes bananas, sorghum ,green grams, cow peas, pigeon peas, cassava, dolichos, cotton

3. Domain Three: Environmental Statistics

The breakdown in this domain follows the structure of the Framework for the Development of Environment Statistics approved by the United Nations Statistical Commission in 2013. More detailed breakdown of statistical areas can be found in the FDES.

3.1. Environment

The sub domain covers statistics about the physical, biological and chemical characteristics of the environment. The FDES further breaks it down to three subcomponents: (1) physical conditions of the atmosphere, hydrographical information, geological and topographic information, and soil characteristics; (2) land cover, ecosystems and biodiversity, protected areas and species; and (3) quality of air, water and soil.

4. Domain Four: Governance Statistics

The breakdown in this domain follows the structure of the Handbook of Governance Statistics approved by the UN Statistical Commission in 2020. More detailed breakdown on statistical areas can be found in the HGS. This Domain replaces and expands subdomain 1.8 'Justice and crime' of the earlier version of the classification (CSA 2009).

4.1. Participation

This sub-domain covers statistics on the ways in which individuals take part in political and public affairs, including by registering to vote, voting or standing as a candidate in elections; being members of legislative, executive and judicial bodies; accessing positions in the public service; being a member of a trade union; and engaging, individually or as members of political parties and other non-governmental organizations, in political activities.

Table 4.1.1: Registered Voters by Constituency and Ward in 2013, 2017 and 2022

Number

Constituency/ Ward	2013	2017	2022

4.2. Access to and Quality of Justice

This sub domain covers statistics on the ability of people to defend and enforce their rights and obtain just resolution of justiciable problems, through impartial formal or informal institutions of justice and with appropriate legal support. It covers both criminal and civil justice, including the accessibility, effectiveness and quality of legal assistance, processes, decisions and outcomes.

5. Domain Five: Cross-Cutting Statistics

This section deals with conceptual or data work based on thematic approaches that require bringing together data across different domains to meet the data needs for policy agendas for development. The domain also covers statistical work that spans two or more of the previous subject-matter domains, or is not elsewhere classified.

5.1. Information Society and Digitalization.

The sub domain covers work on statistics, indicators and frameworks to monitor digital transformation and the use and impact of information and communication technologies (ICT) on society. It looks at these topics in a wider sense than economic aspects, including well-being in a digital society, including work on internet use, internet application, information and communications technology trade, computer use, broadband connectivity, e-commerce, etc.
